ELECTRICAL ENGINEER'S REPORT NO. 21/46.

19TH SEPTEMBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Rural Subsidy.

Several weeks ago an officer of the State Electricity Authorities was asked to visit this district and have a conference with the Electrical Engineers of Fairfield and Liverpool Councils and myself, on the question of obtaining subsidy in connection with the Rural electrification in our particular areas.

An inspection was made of our several districts and Mr. Wilson stated definitely that this Council, or the Councils in question, could not obtain a subsidy for amplification or additional phases or additional transformers.

Subsidies would only be granted with a minimum of £500 expenditure and it must be definitely new consumers.

Electrical Engineer.

ELECTRICAL ENGINEER'S REPORT NO. 22/46.

19TH SEPTEMBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Proposed Street Lighting - St. Johns Park.

Submitted herewith are three plans in connection with the proposed street lighting in the St. Johns Park area.

- | | |
|--------------------|-----------------------------------|
| 1. Street Lighting | Mt. Pritchard. |
| 2. Street Lighting | St. Johns Park. |
| 3. Street Lighting | Mt. Pritchard and St. Johns Park. |

No. 1. Has already been approved of by Council subject to a public meeting in Mt. Pritchard approving of same.

No. 2. Was submitted in 1945 and was approved of by a public meeting but was not approved of by Council. This plan embraces 24 street lamps which include a number of streets, although it was proposed to strike a street lighting rate on same.

No. 3. Embraces the whole of St. Johns Park and Mt. Pritchard and includes street lighting over the whole of the area, and it would be necessary with No. 3 to erect an additional constant current transformer and changing of a 50 kVA power transformer, which would be available from Gladstone Street. The erection of a panel and constant current transformer in Mulgoa Road beneath the existing transformer platform at present erected.

- | | | |
|--------|---|--------|
| No. 1. | Estimated cost of Mt. Pritchard - 27 street lamps | £450 |
| No. 2. | Estimated cost of St. Johns Park - 24 street lamps | £680 |
| | (original report March 1945.) | |
| No. 3. | Estimated cost of Mt. Pritchard and St. Johns Park, including now constant current transformer and necessary control equipment. 84 street lamps | £2,200 |
| | | p.t.o. |

ELECTRICAL ENGINEER'S REPORT NO. 22/46 (cont.)

In Council making a decision, might I point out that if the 20 Kilowatt constant current transformer supplies the energy for the street lighting in No. 1 and No. 2 plans, this transformer will then be fully loaded and will not allow for any additional street lighting in Cabramatta and Canley Vale Wards.

If No. 3 plan is adopted Council might consider the question of raising a loan or increase the overdraft to finance this expenditure as it will take the Trading Fund all its time, with the increased overdraft to supply metering, services and additional phases where required to meet the new housing requirements. I have already discussed this matter with the Town Clerk, who may express his views on the financing of same.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Joint Use of Poles.

The Water Board is desirous of making use of Council's poles from their Mount Misery Reservoir to the corner of Wilson Road, Green Valley.

I have made enquiries and the usual price charged by supply authorities for joint use of poles with any other authority is 3/4 per pole per annum. It would be necessary to have an agreement drawn up, which I propose to submit with the concurrence of the Town Clerk, to the Council on Monday night next.

I have already notified the Board of the proposed charge, subject to decision of Council.

ELECTRICAL ENGINEER'S REPORT NO. 24/46.

23rd SEPTEMBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Submitted herewith is a copy of proposed agreement between the Council of the Municipality of Cabramatta and Canley Vale and the Metropolitan Water Sewerage & Drainage Board:-

"AGREEMENT made the first day of October One Thousand nine hundred and forty six BETWEEN THE COUNCIL OF THE MUNICIPALITY OF CABRAMATTA AND CANLEY VALE (hereinafter called the Council) of one part and the METROPOLITAN WATER SEWERAGE AND DRAINAGE BOARD (hereinafter called the Board) of the other part WITNESSETH as follows:-

1. The Council hereby grants the Board license to use Council's poles erected along Heckenberg Road, Green Valley Road, St. John's Road and Green Valley Road; a total of 49 poles.
2. The license hereby granted entitles the Board to fix to the said poles such wires and attachments as the Board may consider necessary for the proper control and operation of its pumping station at the intersection of Wilson Road and Green Valley Road, for its Mount Misery Reservoir situated at the intersection of Mulgoa Road and Heckenberg Road.
3. The Board shall have free access to the said poles at all times during the continuance of this license for the purpose of maintaining or renewing its wires and attachments and upon the determination of this license for the purpose of removing them.
4. The Board shall pay to the Council upon demand from time to time the cost of any alterations that may be effected to the Council's wires or attachments upon the said poles and that may be necessary by reason of the erection or existence upon the said poles of any wires or attachments belonging to the Board.
5. The Council will at all times during the continuance of this license maintain the said poles in good order and condition.
6. The Board shall pay to the Council the sum of Three Shillings and Four Pence (3/4d.) per annum per pole, on the first day of October in each year during the continuance of this license.
7. Either party shall be at liberty at any time to determine this license by giving to the other six months notice in writing under the hand of the Town Clerk or the Secretary of the Board as the case may be and upon the expiration of any such notice the license hereby granted shall absolutely cease and determine but without releasing either party from liability to the other in respect of any previous breach or non-observance of any of the provisions hereof.

HEALTH INSPECTOR'S REPORT NO. 34/46.

19TH SEPTEMBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Inspection has been made of the Council's Sanitary Depot.

On the day of inspection the boiler used for hot water for the rinsing of the pans and shower room, and steam for the steaming cabinet was unable to be used due to it either leaking or the fusing plug being melted due to lack of water. There was no evidence of any disinfectant being on the premises.

With regard to the condition of the rinsing shed itself a certain amount of repairs are required for the same. The eastern and western walls near the entrance doorways require repairing. The bottom plate on the north west corner, on what is now used as a fuel shed, and the doorpost
p.t.o.

W. J. Griffin

HEALTH INSPECTOR'S REPORT NO. 54/46. (cont.)

of the same requires repairing. The door at the present time is swinging on the doorpost, which is unsupported, due to the defective plate, and will become further damaged if repairs are not carried out.

The corrugated iron wall of the shower room has been damaged by the trucks and also needs repairing.

The drainage from the rinsing trough, as previously mentioned in Inspector's Report 100/45, has still not been provided and diversion of the waste water from the rinsing trough and shower room to the area of land as suggested by Inspector in this report, has still not been complied with.

Both the eastern and western gates to the defined area have been damaged and require either repairing or renewing.

A large quantity of defective disused old sanitary pans are on the area and the contractor should be ordered to remove and satisfactorily dispose of same.

A tent had been erected approximately 60ft. away from the existing dwelling. This tent was occupied by an employee of the contractor, namely a Mr. M. Male, his wife and three children. I informed Mrs. Male that the erection of this tent, in my opinion, could not be allowed and that if they required to reside upon the sanitary depot, they would have to make application to Council for this erection. This tent has since been removed and re-erected on Mr. Potbury's land adjoining the depot. I also suggested that they make application to the Housing Commission for a dwelling.

RECOMMENDATION.

I recommend that Council construct the tarring hopper with roof covering over the same as previously mentioned in Inspector's Report 100/45 of the 13th December, 1945.

That they give consideration to clearing additional portion of the land as mentioned in this report, after the Contractor removed his discarded pans from the area.

That a notice be served upon the Contractor to:-

1. Repair or renew the steam boiler forthwith.
2. Provide a sufficiency of disinfectant for the rinsing trough and a sufficient amount to allow to be added at least 1/16th pint of approved deodorant to each individual pan before delivery.
3. Provide proper drainage from the rinsing trough to the concrete drain.
4. Divert the waste water from the rinsing trough and shower room to the area as suggested by the Inspector.
5. Repair the damaged walls of the cleansing shed and shower room, also doorway entrance to fuel shed.
6. Repair or renew the gates on the eastern and western entrances to the depot.
7. Remove and satisfactorily dispose of all defective and disused old sanitary pans on the area.
8. Put into effect all clauses and subclauses of the signed terms and specifications of the contract.

Period of Compliance Fourteen (14) days.

HEALTH INSPECTOR'S REPORT NO. 35/46.

19th September, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Inspection of Premises No. 41 Pritchard Street.

On notice of complaint an inspection has been made of the above premises and the following report is submitted.

The dwelling, consisting of one bedroom, kitchen and enclosed verandah, is occupied by two married couples and one child.

The front verandah is divided into two sleeping compartments, each measuring approximately 12ft x 7ft. 8 inches and is fully enclosed with a ceiling height varying from 9ft. to 7ft. 4 inches, and therefore does not meet with the requirements of Local Government Ordinance. One compartment has a glazed window measuring 3ft 6 inches x 3ft. 3 inches capable of being opened, while the other compartment has an unglazed opening measuring approximately 3ft. 6 inches x 2ft. 4 inches.

Kitchen: No permanent ventilation and the only window provided opens on to enclosed verandah. No sink is provided to kitchen.

Bedroom: No permanent ventilation is provided to bedroom.

No bathroom or laundry is provided on the premises.

It is recommended that a notice be served on the owner of the above property to:-

1. Provide a ceiling height of 9ft. from floor to ceiling all round to enclosed verandah and insert a proper window to western compartment. Size of window to be at least 1/10th the area of floor space of compartment and capable of being opened to external air.
2. Provide a window to kitchen which is capable of being opened to external air, such window to have an area of at least equal to 1/10th area of floor space of room served.

WORKS AND GENERAL PURPOSES COMMITTEE'S REPORT NO. 17/46

23RD SEPTEMBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

The Works and General Purposes Committee has to report that it met on the 19th September, 1946, considered the Electrical Engineer's Reports Nos. 22/46, 23/46 and decided to make the following recommendations:-

1. Electrical Engineer's Report No. 22/46 - Street Lighting St. Johns Park.

That consideration be deferred and the Town Clerk furnish a report covering methods of financing the proposal.

2. Electrical Engineer's Report No. 23/46 - Joint use of poles.

That the report be adopted.

3. Housing Commission Project in vicinity of Canley Vale Railway Station.

That the Housing Commission be permitted to erect houses in the above project, excepting two in First Avenue and three in Lansdowne Road which shall have tiled roofs, with corrugated fibro roofing provided they are of high pitch, and further, that no low pitch roofs be permitted in the area.

4. Department of Labour and Industry - Erection of Hardware Shop.

That the Department be advised that the Council is of the opinion that a hardware shop is desirable in this particular and that they be advised of the reasons for the rejection of the plans for the erection at the proposed site.

TOWN CLERK'S REPORT NO. 13/46.

18TH SEPTEMBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

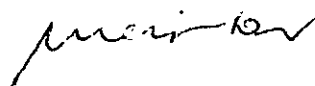

Gentlemen:

Junior Typiste.

As instructed by Council, I have interviewed the two applicants for the position of Junior Typiste, but after testing their capabilities, I am of the opinion that neither of the applicants are of the standard necessary.

I desire to ask permission to communicate with the Business Colleges direct, and if a suitable girl is not available, to re-advertise the position for girls up to eighteen (18) years of age.

Yours faithfully,

Town Clerk.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE.

TOWN CLERK'S REPORT NO. 14/46.

20TH SEPTEMBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Financing proposed street lighting
extension - St. John's Ward.

There are two methods by which the money might be secured, by Overdraft or by Ordinary Loan.

There is every reason to believe that the Overdraft could be secured fairly quickly, as this amount added to the present overdraft would be within the legal limit. One advantage of this method is that the Capital would not have to be repaid unless the Council so desired, but the interest rate would be $4\frac{1}{2}\%$, involving payment of approximately £112 per annum.

An Ordinary Loan could be obtained over a period of 15 or 20 years, as allowed by the Department, and the interest rate would not exceed $3\frac{5}{8}\%$. The annual instalments of Principal and Interest would be for 15 years loan- £217/10/8, and for 20 years £176/16/5.

I have discussed the proposals with an officer of the Department of Local Government, regarding the attitude of the Department to several aspects of the proposal, and now consider that the best method would be to finance this scheme by an Ordinary Loan.

I was under the impression that there would be delay in obtaining the Governor's approval, because of the necessity to wait a long period for an allocation, but it appears now that the position has improved and there is evidence of this in the fact that approval has now been given for the loan of £1,000 for Town Planning purposes.

The Department would probably not be satisfied to approve expenditure from the Trading Fund for Street Lighting purposes in the ordinary way, but in view of the fact that it has been recognised for some time, that the charge for electrical energy of 2½d. per KW hour for street lighting purposes, was sufficient to provide a return to the Trading Undertaking on its capital investment, I would be prepared to recommend the financing of the loan from the Trading Fund, because the annual charge for energy would include capital expenditure.

As to the term of the Loan, I submitted the figures for each term early in the report.

The question to decide is whether the Council prefers a larger total interest payment as against a greater annual instalment, thereby reducing total amount of interest paid. Over a period of 15 years, Council would of course repay the loan and would pay an amount of £768 in interest. For the 20 year term, the interest would amount to £1,086. This really means that a saving of £41 per annum in instalments involves an additional interest bill of £275.

ELECTRICITY COMMITTEE'S REPORT NO. 20/46

8TH OCTOBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

The Electricity Committee has to report that it met on the 3rd October, 1946 and considered the Electrical Engineer's Reports Nos. 26/46, 27/46, 28/46, 29/46 and 30/46. An apology for non-attendance was received and accepted from Ald. McBurney. The Committee decided to make the following recommendations:-

1. Report No. 26/46 - Allotment of Electric Ranges.

That the Electrical Engineer submit particulars of ranges available and names of applicants to the Electricity Committee for allocation.

2. Report No. 27/46 - Connection of 3 H.P. motor - Mr. Pearce

That the report be adopted and that an allowance of eight shillings be made to cover the time lost in obtaining materials.

3. Report No. 28/46 - Installation of 25 H.P. motor - Mr. Hogan

That the application be approved and that the applicant be advised that no extension to his business would be permitted.

4. Report No. 29/46 - Installation of 3 H.P. motor - R. Defina

That the application be referred to the Town Planning Committee.

5. Report No. 30/46

That the employees concerned be granted one additional week holiday annually.

6. Cost Account

That the cost account as submitted be referred to Council for consideration.

7. That one additional street lamp be erected in Vale Street between Longfield Street and Chancery Street and that the other lamp in that section be moved to provide equal spacing.

8. That one additional street lamp be erected in Lansdowne Road between Shortland Street and the bridge.

ELECTRICAL ENGINEER'S REPORT NO.26/46.

3rd OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen: Allotment of Electric Ranges.

At the last meeting of Council the question of preferences in the allotment of Electric Ranges was brought up.

I may state that I have investigated the question why Mr. Vose received his range in December, 1945. Mr. Vose ordered a range in 1944 and subsequently entered hospital and had a very serious operation. Towards the end of 1945 he came in and appealed to me that he was unable to do any work and his wife was carrying out the whole of the work on the poultry farm, and under these circumstances he was supplied with the electric range.

I may state that I have made enquiries from the St. George County Council, Sydney County Council and other supply authorities who give preferential treatment to those people erecting homes who do not instal a solid fuel stove. Whilst people who have money available now would like to instal modern cooking equipment, although they already have a solid fuel stove installed, many other people who are building homes and cannot obtain a solid fuel stove are trying to obtain other means of cooking.

Council might consider giving preference to those people who are erecting homes and who have no other means of cooking by allowing an electric range to be obtained when available.

I may state in passing that during the year 1945, I was able to obtain for this Council 19 ranges from the Manufacturer and the County Council only obtained 25 from the same Manufacturer.

ELECTRICAL ENGINEER'S REPORT NO. 27/46.

3rd OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen: Connection of 3 H.P. Motor - Mr. Pearce.

I have investigated the querying of the amount charges for connecting a 3 H.P. Motor for Mr. Pearce, of Sweethaven Road, St. John's Park.

It appears that it was necessary to re-wire this motor from the control switch to the motor and due to a shortage of transport (1 utility under repair), T. McKinnon, electrical mechanic, was kept waiting for one hour for flexible conduit.

Hereunder is a report from E. Moore, who supervises the installation work.

Electrical Engineer.
Sir,

Herewith at your request is a report on installation work at Mr. Pearce's property, Sweethaven Road.

The job stated only to connect motor, but was one of those jobs that you do not know what material will be required until inspected. A motor had been previously installed and removed and the cable and conduit connecting motor had also been removed. On this particular day our transport was under repair and only the service truck was working. It was necessary when advised what material was required, to await service truck to send it out.

Apprentice Watts drove his car out so as to return when the job was completed and had trouble which necessitated the cleaning of carburettor.

3rd OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen; Installation 25 H.P. Motor - Mr. Hogan.

Mr. H. Hogan, of Anderson Avenue, Mt. Pritchard, has made application to have a 25 H.P. Motor connected to Council's electricity supply for the purpose of sawmilling. Mr. Hogan advised me that he has been using a petrol engine since May last and now proposes to use electricity. He has registered with the Dept. of Labour & Industry, Registered No. 36264. I am asking direction on this matter.

3rd OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen: Installation of 3 H.P. Motor - R. Defina.

R. Defina, residing at the corner of Edensor Road and Bulls Road has made application for the installation of a 3 H.P. Motor for the purpose of using a sawbench for making tomato cases and joinery.

This area is outside the industrial area. I might state that Mr. Defina is Australian born and it would be very inconvenient for him if he had to make other arrangements.

I am asking for direction by Council on this matter.

ELECTRICAL ENGINEER'S REPORT NO. 30/46.

3rd OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

I am in receipt of a letter from R.G. Hellmers, shop steward, G. Shepherdson, and E. Moore, with reference to the service being provided to consumers in silent hours.

They consider that the payment of £1/-/- per week does not provide adequate recompense for the number of calls they have during the week, and they suggest that where they are on duty on a public holiday that they be allowed a day off in lieu thereof or alternatively one week's additional holiday per annum with pay.

As the number of consumers in the area is now rapidly increasing, Council might consider allowing one week's additional leave per annum for being on duty on public holidays.

The letter is herewith attached.

RECOMMENDATIONS.

1. That applications 341/46 to 349/46 be approved as amended.
2. That the following applications be approved with provisos:-
 - (1) Application 350/46 is for a fibro dwelling in Longfield Street, subject to the rear verandah to be of an open type.
 - (2) Application 351/46 is for a fibro dwelling in Station Street, subject to the application to be endorsed by the Cumberland County Council.
 - (3) Application 352/46 for a fibro dwelling in Roebuck Street, subject to the required fees being paid.
 - (4) Application 353/46 for a fibro dwelling on the corner of Canley Vale Road and Salisbury Street. I do not consider it will interfere with the town planning of this area. The application is submitted to Council and the Town Planning Committee.
 - (5) Application 354/46 is for a fibro dwelling in Buckingham Street and I do not consider it will interfere with the town planning of this area. The application is submitted to Council and the Town Planning Committee.
 - (6) Application 355/46 is for the erection of a garage and workshop. The plans and specifications are in order. The applicant indicated that the workshop was for his own use. I submit the same for Council's consideration.
 - (7) Application 356/46 is for the erection of a fibro dwelling in Greenfield Road. The specifications are in order but the plan is poor. I submit the application for Council's consideration.
 - (8) Application 357/46 is an amended site plan on plan 272/45. Application 272/45 was approved for the erection of a dwelling in Gilbert Street. The applicant now proposes to erect the same on Lot 21 Church Street. I recommend that approval be granted.
 - (9) Application 358/46 is an amended site plan on plan 156/46, subject to the window of the proposed storeroom to still be at least 1/10th of the floor area.

The premises have been inspected and the necessary precautions taken to prevent the spread of infection.

Clause 2. An inspection has been made of premises No. 11 Prout Street, Cabramatta, in reference to house drainage. On inspection it was found that the drainage from the laundry discharged directly into the street gutter without first passing through an absorption trench, and that the drainage from the bathroom and kitchen discharged to an absorption trench with an overflow pipe to the street gutter.

On the premises there was also found a septic tank installation into which the discharges of a water closet only were being admitted. This tank was constructed approximately fifteen years ago and is now in such a condition as to be a nuisance or dangerous to health. The disposal of the final effluent has been to an absorption trench, which because of the estimated depth of the final catchment well being approximately 7ft. 6" and the fall of the pipe line of not less than 1ft., the absorption trench at a depth of 8ft. 6" would be useless.

I have contacted the owner in reference to the septic tank and he informed me that he is not prepared to outlay any expense on this installation, and would rather remove the same.

RECOMMENDATION.

I recommend that a notice be served upon the owner under Section 65 of the Public Health Act to carry out the following work.

1. Erect a closet convenience in accordance with Ordinance 44 forthwith.
2. Empty and remove the contents of the septic tank to the sanitary depot, cleanse the tank and fill the installation with clean soil.
3. Disconnect the soil drainage system from the tank, remove the water closet convenience and seal off the waste pipe from the same.
4. Provide a grease interceptor to the kitchen sink, and absorption trenches for the disposal of house waste water and remove the pipes discharging the same into the street gutter.

Period for compliance - Thirty (30) days.

Chief Inspector.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE.

HEALTH INSPECTOR'S REPORT NO. 37/46.

3RD OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Re Sullage - Cabramatta Road West.

On notice of complaint an inspection has been carried out of premises situated on the northern side of Cabramatta Road West, between Gladstone Street and Coventry Road, in regard to sullage disposal. Report of inspection is submitted.

Premises situated at 353 Cabramatta Road West.

Wastes from kitchen, bathroom and laundry are discharged into street gutter.

Premises situated at No. 339 Cabramatta Road West.

Bath and laundry wastes are not trapped. Untreated sullage water is discharged into street gutter.

Premises situated at No. 341 Cabramatta Road West.

Bath wastes are discharged into street gutter, and laundry wastes are at present discharged on to vacant allotment on western side of residence.

As a result of sullage from the above premises being discharged into the street gutter, most objectionable conditions prevail in this area. This is particularly so in regard to that section of street in front of No. 339.

RECOMMENDATION.

1. That a notice be served on the owners of each of the above premises to:-
 - (a) Effectively trap all fittings and provide grease interceptor and gullies where necessary, and to dispose of sullage waste water on their own property in an approved absorption trench and bailing pit as approved by Council.
2. That Council give attention to water tables in this area.

Period of Compliance - Sixty (60) days.

G. T. Gifford
Inspector.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE
WORKS AND GENERAL PURPOSES COMMITTEE'S REPORT NO. 18/46

8TH OCTOBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

The Works and General Purposes Committee has to report that it met on the 3rd October, 1946, considered the Overseer's Report No. 15/46 and decided to make the following recommendations:

1. Application to obtain sand from the Georges River

That permission be granted provided that sand is not pumped nearer than twenty feet from the bank.

2. Concrete Formers

That an additional hundred feet of formers be purchased.

3. Plan of Subdivision - Sunny Homes Estate and W. Harry's Property

That the design as submitted be approved subject to satisfactory negotiations being made with the applicants for the provision of a suitable playing area of approximately five acres from the area to be subdivided.

4. Subdivision plan by Mr. W. G. Jordan

That the application be approved.

5. Outstanding Rates

That a sub-committee be appointed to comprise available Aldermen from each Ward to meet at convenient times to consider outstanding rates in respect of the Ward concerned.

6. Baby Health Centre

(a) That a foundation stone be laid and an appropriate function be conducted for the occasion.

(b) That Dr. Grace Cuthbert be approached through the Department of Health and asked to lay the stone and that appropriate wording on the stone be inscribed, such wording to include the names of the three executive officers of the Cabramatta and Canley Vale Citizens' Baby Health Centre Committee.

7. Request by Mr. Russell for floodlighting

That the Electrical Engineer be authorised to instal suitable illumination at Council's expense for the car parking area at the function to be conducted on the 5th instant.

8. Town Hall lighting

That the fluorescent lighting at present provided in the Town Hall be permanently installed.

A.G. Odams
Chairman

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE.

OVERSEER'S REPORT NO. 15/46.

5RD OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council,

Gentlemen:

In reference to the application for grant to obtain sand from Georges River by J. Macaro, I have been instructed by the Council to submit a report.

About ten years ago a pumping plant worked obtaining sand from the bed of this portion of the river. At the time I inspected the river and found the banks were not damaged by the pumping plant.

From this experience and as our roads from the river will not be used by their transport, I recommend that no objection be raised, but a proviso be stated that sand must not be pumped nearer than 20ft. from the bank.

I wish to report that the new concrete formers are so successful I desire another 100ft. This would speed up the work as it would then be possible to pour concrete every day. Now it is necessary to set the formers one day and the next day pour the concrete. With another 100ft. two men could set up the formers each day, while the concretors poured and finished the previous setting.

SUBDIVISIONS.

A plan has been submitted by Forsythe and Evans, solicitors, of a proposed subdivision of land previously owned by Mr. Bull, now to be known as Sunny Homes Estate, also a plan of the adjoining property submitted by Mr. W. Harry.

The two parties working in conjunction have shown on the plans three roads 66ft. wide, leading from the southern side of Cabramatta Road towards the Cabramatta Creek. The new roads to be formed by the subdividers.

The blocks facing the new roads are 60ft. x 130ft. area 7,800sq.ft. and 60ft. x 120ft. area 7,200 sq.ft., except two blocks with a frontage of 41ft. area 800sq.ft. The subdivisions have been approved by the Cumberland County Council. I would recommend the subdivisions be approved.

A plan has been submitted by W.G. Jordan of 49 Prospect Road, Canley Vale, dividing one block into two with an entrance only to Senior Street. This subdivision has been approved by the Cumberland County Council.

I would recommend that the subdivision be approved.

Works Completed.

Car entrance to Jennings and Fairhall's property in Broomfield Street at a cost of £7.

Tar paving footpath, Bright Parade in front of Morrison's garage at a cost of £6 to the owner.

W.G. Jordan
Overseer.

1076. Seconded by Ald. McBurney. Carried.

Upon resumption in open Council the Town Clerk reported that the Committee desired to recommend that the occupant of house No. 49 Longfield Street east, be permitted to keep not more than three milking goats; that the premises must be kept clean and in a sanitary condition at all times; and that paragraphs 2 and 3 of the Health Inspector's Report No. 38/46, recommended for approval by the Committee, be not adopted.

The report of the Committee of the Whole was received and adopted.

Ald. Dawson referred to the Council Tables and suggested that steps should be taken to have them examined at an early date.

The Mayor said that this matter would receive attention.

Electricity Works Trading Fund Cost Account.

Ald. McBurney moved- "That the Cost Account be made an Order of the Day for the next meeting." Seconded by Ald.

HEALTH INSPECTOR'S REPORT NO. 38/46

17TH OCTOBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Inspection has been made of premises No. 49 Longfield Street, Cabramatta with reference to a complaint received as to the keeping of goats on the premises.

On the day of inspection I found seven goats kept in the yard area at the rear of the premises. The goats were tethered and housed in portions of old galvanised iron water tanks. The yard surface area needed cleansing due to dung deposits and the nearest goat to the dwelling was kept at approximately twenty four feet distance.

On the premises also, are a number of fowls kept in an enclosed yard and two ducks. In view of the amount of yard area being insufficient for the keeping of the before mentioned number of goats on the premises, I recommend that the Council, having due regard to Sections 289 (e) and 530 of the Local Government Act 1919-45 and the amendments made thereunder, by resolution direct:-

- " 1. That the occupant be ordered to discontinue the practice of keeping more than three goats on the premises. The goats to be kept at not less than fifty feet from any dwelling or public place.
2. Provide a proper structure for the housing of the goats with a concrete floor properly graded and drained, and cause the same to be cleansed daily.
3. Discontinue the practice of keeping ducks nearer than one hundred feet and fowls nearer than thirty feet from any dwelling, or public place.
4. Cause the premises to be kept in a clean and sanitary condition at all times.

Period for compliance - Thirty days"

HEALTH INSPECTOR'S REPORT NO. 39/46

17TH OCTOBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

With reference to a letter received from the Board of Health dated the 9th inst. Ref. No. A.46/214/13633, I have to submit the following:-

Reports were submitted to this Council on the 13th December, 1945 and 1st July, 1946 Report Nos. 101/45 and 28/46, in connection with the disposal of sullage water from Housing Commission property in this Municipality. I would recommend that a copy of such reports be forwarded to the Board of Health which would indicate the action that has been taken by this Council.

I visited the premises occupied by Mr. Lynch, No. 49 Station Street, situated on lot 12, D.P.10370 on Friday the 11th inst. and was informed by Mr. Lynch that "the drain" into which the child is alleged to have fallen is in reality a depression caused by a settlement of the earth covering a sullage sump provided by the Housing Commission.

It is the duty of the occupier of the premises to bail out the sump as circumstances require and dispose of the contents over cultivated land in such a way as to not create a nuisance. With reference to the drainage in the front of the property, the unmade water table on the opposite and southern side of Station Street has become fouled by discharge of house waste water from Housing Commission properties. Council has the construction of a properly formed concrete water table to this street on its works programme.

My opinion is that until sewerage facilities are provided there will be continual complaints regarding the disposal of sullage water in the area. I would also recommend that a copy of my comment might be forwarded to the Board of Health with a request for any assistance deemed advisable to have the sewer extended to service the subject area.

TOWN CLERK'S REPORT NO. 15/46.

21ST OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Street Lighting.

In accordance with Council's directions, notices were sent to Ratepayers in the St. John's Park and Mount Pritchard areas, where it was proposed to extend the street lighting, inviting them to attend meetings at the School of Arts, St. John's Park, on Wednesday the 9th October, and at the "Mayfair" Theatre on Thursday the 10th October, 1946.

At the St. John's Park Meeting, His Worship the Mayor was present and accompanied by Council's Officers; for the purpose of submitting the proposal. Those present, by a large majority, decided to request the Council to proceed with the scheme.

At the Mount Pritchard Meeting, the Deputy Mayor, Ald. W.J. Preston, presided, and the Ratepayers at that meeting also decided, by a large majority, to request the Council to proceed with the scheme.

Yours faithfully,

TOWN CLERK.

ELECTRICITY COMMITTEE'S REPORT NO. 21/46.

4TH NOVEMBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

The Electricity Committee has to report that it met on the 31st October, 1946 considered the Electrical Engineer's Report No. 31/46 and decided to make the following recommendations:

1. Street Lamp at corner of Mulgoa & Cowpasture Roads.

That no action be taken and that the Kemp's Creek Progress Association be advised that further consideration of this matter would be given at a later date.

2. Range Rate for Grillers and Stovettes.

That the matter be deferred until next committee meeting and that further information as to the type of stovette mentioned in the application be obtained.

3. Range in Caretaker's Quarters.

That the range at present installed be replaced by the L.B.2 Range in stock.

4. Allotment of Electric Ranges.

(a) That Mrs. Hillier, Mrs. Barling, Mr. Stepney, Mrs. Bremmer, Mrs. Marshall and Mrs. Nance be allotted ranges.

(b) That Mrs. Minch be allotted the first Metters No. 1 Range to be received.

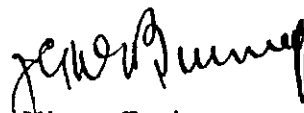

(c) That Mr. O. J. Woods be advised that a three plate range is not available and requested to indicate whether any other type would suit his requirements.

(d) That a complete list of all outstanding applications for ranges be submitted to next committee meeting.

(e) That the Electrical Engineer, on the receipt of each consignment of ranges, submit the names of people who, in his opinion, are in most urgent need of a range.

(f) That a form of application for ranges be printed and a copy forwarded to all applicants whose names appear on the list and that future applicants for ranges be asked to complete the said form.

5. That the Electrical Engineer report to next meeting on the charges for the electricity purchased by the Council.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE

ELECTRICAL ENGINEER'S REPORT NO. 31/46

31ST OCTOBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

1. Street Lamp at corner of Mulgoa and Cowpasture Roads.

I have to report that in reply to the letter from Kemp's Creek Progress Association stating that drivers of vehicles had complained of the glare in their eyes from a street light at the corner of Mulgoa and Cowpasture Roads. Application was made by Mr. Day for the erection of a street lamp at the above mentioned intersection and Council agreed to erect same provided Mr. Day paid the annual charge of £4.10. -. A Dilon lantern was erected in the centre of the road and a 300 Watt Edison screw metal filament lamp was placed there. The cost of the lamp itself is 6/1d. I have inspected this lamp on several occasions and no doubt, due to the fact that there was no lighting there previously, drivers of motor vehicles say there is too much glare. From the point of economy in keeping down capital expenditure, a 300 Watt metal filament lamp was installed - price 6/1d. but if Council so desires, a 300 Watt Sieray dual lamp could be fitted to this street light. The cost of the lamp is £3. 6. 2. This would probably reduce the glare if any whilst keeping the same amount of light, but in my own personal opinion there is not an excessive amount of glare there now.

2. Range Rate for Grillers and Stovettes.

Mt. Pritchard Progress Association has made application to have stovettes, grillers etc. put on the range rate. This matter came before Council some years ago and Council in its wisdom, decided against allowing the range rate for stovettes, grillers etc. It is fairly obvious that the type of stovette and griller which is being made to-day will not have a very long life when constantly in use. The average person heats milk, coffee etc. on these grillers which boils over and carbonises on the open resistance wire which is not mechanically protected and so burns them out. Within a very short period the metal work corrodes and the griller collapses. Council's decision many years ago was that no person should receive the range rate of electricity unless the range was permanently connected to the general installation.

About 12 months ago I made a recommendation to the Council to have the tertiary rate of 1½d. reduced to 1d. and in my opinion this is the only means whereby these people who have grillers and stovettes could gain because if they were allowed the range rate on grillers and stovettes, the policing to see whether they were being used would be enormous.

3. Range in Caretaker's Quarters.

Due to lack of finance when the new Council Chambers were being built a Hecla R.G.1 electric range was installed in the Caretaker's residence and the late Mayor promised Mr. Pangborn that as soon as opportunity presented itself

p.t.o.

ELECTRICAL ENGINEER'S REPORT NO. 31/46 CONTD.

SHEET 2

a larger range would be installed. We have now in stock a Hotpoint L.B.2 low oven model which could be installed without any alteration to the wiring and the Hecla R.G.1 then sold for about £15. This range is in perfect order and kept very clean and is a credit to Mrs. Pangborn. The price of the L.B.2 is about £22/10/-. This would then give the comfort of cooking on a larger range.

4. Allotment of Electric Ranges.

Delivery has been taken of 5 Rowco 2 plate low oven and 1 Metters 2 plate low oven Ranges. I submit herewith a list of applications for electric ranges together with several letters and may I point out that there are 4 or 5 consumers who are without any other means of cooking, as follows:-

Mrs. Hillier, Bulls Road, 3 in family, new cottage, Mrs. Hillier in a very bad state of health, the only means of cooking is on a primus.

Mrs. Barling, Railway Parade, new cottage, cooking for husband, self and 2 children, son 8 years old suffering from a weak heart as a result of rheumatic fever.

Mr. Stepney, John Street, fuel stove burnt out and is unable to find firm to supply new one. There are seven persons residing in the home.

Mrs. Bremmer, Fairview Road, new home, no other means of cooking whatsoever. Both Mr. & Mrs. Bremmer are invalids and there is 1 son in family.

Mrs. Marshall, Meadows Road, 3 in family and Mrs. Marshall in a delicate state of health. Fuel stove burnt out.

Mrs. Nance, Coventry Road, fuel stove in state of disrepair, husband, self and 3 children including baby 9 months old artificially fed.

There is a letter from Mrs. Minch from Mulgoa Road who is desirous of having a Metters No. 1 Range installed. Mrs. Minch has appealed to me on many occasions and I expect to get delivery of a few Metters No. 1 Ranges in a few weeks. Mrs. Minch is in very ill health and I may say that if one were allotted to her she would get much comfort from it.

A letter has been received from Mr. C. J. Woods of Cambridge Street stating that there are eight children, husband and wife in the home and I understand the fuel stove is in a state of disrepair. Mr. Woods has interviewed me a number of times with reference to the supply of a 3 plate range but I have pointed out to him repeatedly that there has not been any 3 plate ranges manufactured for several years. I have replied to Mr. Woods pointing this out.

p.t.o.

ELECTRICAL ENGINEER'S REPORT NO. 31/46 CONTD

SHEET 3

In passing, I might point out that Metters Limited will not take orders for ranges either solid fuel, electric or gas unless the building permit from the Council is supplied with the order and they are only supplying for new homes.

5. Transformer for proposed street lighting in St. Johns Park.

Considerable difficulty is being experienced in obtaining a constant current transformer for the proposed street lighting of St. Johns Park. I have been in touch with various manufacturers and they are unable to state a date of delivery under 12 months. I have communicated with several other supply authorities such as Parramatta Electric Light and Power Supply who made an offer to sell this Council a 20 K.W. constant current transformer with the primary windings at 10,000 Volts. It would be necessary to have these primary windings removed and 415 Volt coils inserted in the transformer. I am now awaiting a price from the Australian General Electric Co. Pty. Ltd. as to the estimated cost of this work. This transformer would be too big in size for the proposed load and it would be necessary to instal power factor corrections so that the energy charges would not be excessive on the supply from the Railways. I am now awaiting a quotation for the power factor corrections.

ELECTRICAL ENGINEER'S REPORT NO. 32/46

4TH NOVEMBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council

Gentlemen:

1. Constant Current Transformer for proposed street lighting in St. Johns Park

Following my report to the Electricity Committee No. 31/46, para. 5, I may state I have definite information on the cost of a constant current transformer for the proposed street lighting in St. Johns Park.

I have had an offer from the Parramatta Electricity Supply for the purchase of a constant current transformer for £50 which is very cheap. The cost of fitting new primary windings as quoted by the A.G.E. is £58/10/- and the cost of condensers to correct power factor from .35 to .9 is £72/13/6. Therefore the total cost of transformer is £181/3/6. The saving in maximum demand charge is estimated at £48/10/- per annum. The power factor correction and condensers installed will have paid for themselves within 18 months. I am recommending that we purchase the transformer and make the necessary alterations and install the power factor corrections.

2. Allotment of Range

There is another range available of which delivery was not taken until Thursday last when I reported that His Worship the Mayor had received a letter from Mr. C. J. Woods to which I replied pointing out that we had not taken delivery of any 3 plate ranges for some years. Mrs. Woods has now written to me stating that she would be pleased to take a 2 plate range and as stated, there are 8 children, husband and wife and I understand the fuel stove is in a state of disrepair. Council might consider allotting this range to Mrs. Woods.

3. Application for leave of absence - Mr. W. Worth

Application for two weeks annual leave as from the 8th instant has been made by Mr. W. Worth.

4. Cost of Electricity Purchased.

On the question being raised by Alderman Cooper of the difference in charges of bulk supply of electricity between the Railway Department and the Sydney County Council. I have investigated this matter and submitted herewith is cost of purchase of electricity from July 1945 to June 1946:

Total cost of electricity purchased from the Railway Department	£12,142. 7. 6
---	---------------

Cost of purchase of same amount from the Sydney County Council	10,991. 7. 8
--	--------------

which would show a saving of £1150.19.14.

matter.

RECOMMENDATIONS.

1. That applications Nos. 371/46 to 374/46 be recommended for approval as amended.
2. That applications No. 375/46 to 380/46 be recommended for approval subject to endorsement by the Cumberland County Council.
3. Application 381/46 is for the erection of a dressing shed on Cook Park. The Building consent permit having been obtained from the Department of Labour and Industry, the plan is recommended for approval.
4. That the following applications be approved with provisos:
 - (1) Application 382/46, for the erection of a detached sleep out and addition of front verandah. Subject to a height of 9ft. from floor to ceiling throughout the sleepout, and a gable roof over the same.
 - (2) Application 383/46 is for the erection of a fibro dwelling on lots 6/7, Section 23, Canley Vale Road. I do not consider the erection of the dwelling will interfere with the town planning of this area. I submit the same to Council and Town Planning Committee.
 - (3) Application 384/46. Subject to the building being erected 25ft. from the street alignment.
 - (4) Application 385/46, is for the erection of a fibro dwelling, tile roofing in Moore Street, subject to the cubic capacity of the bedroom being not less than 1,296 cubic feet measured below 9ft. in height. The application to be endorsed by the Cumberland County Council.
 - (5) Application 386/46 is for the erection of a pre-cast concrete "Denaro Air Flow Block" dwelling at Smithfield Road. The concrete block product of this firm has been approved by the Department of Local Government for the structural erection of dwelling houses. The amended plan is recommended for approval. A letter has been received in regard to this application.

HEALTH INSPECTOR'S REPORT NO. 40/46.

31ST OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

PUBLIC HEALTH ACT.

Clause 1. Two cases of infectious disease have been reported since the last Council meeting.

Meningococcal Meningitis	1 case	St. Johns Ward.
Diphtheria	1 case	Cabramatta Ward

The premises have been inspected and the necessary precautions taken to prevent the spread of infection.

The patient suffering from diphtheria had not been immunised.

Clause 2. Ordinance 56 (Butchers Shops and Smallgoods).
An application was received from Mr. J. B. O'Sullivan, occupier of Mr. C. Grant's premises in Meadows Road, Mt. Pritchard. This application was dealt with at the Council meeting held on the 1st July, 1946 and a notice was served upon the owner of the premises to carry out specified work. I have been in contact with both the owner and the supplier from whom he endeavoured to obtain material to carry out the work and at the present time he has been unable to obtain the necessary material. As the applicant for the license is conducting business operations on unlicensed premises, I recommend that a license be issued provided that the work, as specified in Council's notice No. 11/46 dated the 1st August, 1946, be complied with as soon as this material is obtained.

Clause 3. I have to report to Council that on noticing a certain amount of sludge content in sullage water discharged from Mr. Grist's shop property occupied by Mr. S. Radford, I made an inspection and made certain recommendations to Mr. Radford, who has communicated the same to the owner. I recommended that a large grease interceptor be constructed adjacent to the exterior wall of the premises and receiving the water from the kitchen sink in the shop, also that the present existing filter trench be reconstructed of brick set in cement and cement rendered internally so as to make the same a water tight compartment, the trench to be increased to a minimum length of not less than 20ft. I would like Council to endorse my action with regard to the previous recommendation.

Clause 4. I would like to report to Council that certain work has been carried out by the owner of Cabramatta Hotel premises with regard to the drainage from the premises. Approximately one month ago the owner had endeavoured to plough the whole of the lots at the rear of the hotel premises by means of a mechanical plough, but due to the saturated nature of the ground adjacent to the street alignment, it was decided to plough furrows to divert the water from this area and allow the same to dry out. The whole of the lots of land at the rear of the hotel premises have since been ploughed and precautions taken to prevent the sullage water from flowing over the footpath of Railway Parade. It will be necessary for constant attention to be given to this area in regard to the dispersal of water to prevent ponding. This should be obtained by periodically diverting the water in channel formation.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALLE.

HEALTH INSPECTOR'S REPORT NO. 41/46.

31ST OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Re Proposed Extension of Night Soil Scavenging
District to Include the Balance of St. Johns Ward.

I have to report to Council that we have received approximately 130 applications for exemption from the proposed sanitary service.

The applications received are set out in street alphabetical order and the number of applications respectively in each street, as follows:-

Allambie Road		3
Bibbys Road		12
Boomerang Road		4
Booralla Road		4
Brown Road		4
Bulls Road		12
Burns Road		11
Cowpasture Road		1
Edensor Road		9
Greenfield Road		10
Harris Road		2
Kalang Road		1
Lackey Road		2
Lewis Street		1
Liverpool Road		3
Marriott Street		1
Mimosa Road		3
Montgomery Road		4
Mount Street		1
Mulgoa Road		11
Myrtle Road		1
Smithfield Road		18
Svan Road		4
Sweethaven Road		4
Weeroona Road		1
Whittaker Road		3
		<u>130</u>

In the portion of St. Johns Ward to which the sanitary service is not rendered officially by Council's contractor there are approximately 380 residences erected and it will be observed that we have received applications for exemption from approximately one third. I recommend that Council extend the night soil scavenging district to include the balance of St. Johns Ward. I also recommend that Council's contractor be informed at the earliest possible moment of the proposed extension so as to make available the necessary labour and equipment for the proper rendering of the service.

No doubt there are a number of dwellings receiving the sanitary service by the contractor's employees in this particular area without Council's knowledge, and I believe the charge for the service rendered is 1/- per service. With regard to the proposed extension, I would recommend that if Council does extend the night soil scavenging district to include the balance of St. Johns Ward, that no exemptions be granted where the contractor's vehicle enters the street.

p.t.o.

HEALTH INSPECTOR'S REPORT NO. 41/46. (cont.)

If Council does extend the area it will become absolutely essential that they clear the additional area available for disposal at the sanitary depot. The clearing of this additional area was referred to in the Health Inspector's report No. 100/45 of the 13th December, 1945.

Whether Council extends the area or otherwise, I would strongly recommend that an extract of Ordinance 44 ("The proper construction of earth closets"), be forwarded in circular letter form to all premises occupied and to which the sanitary service, at the present time is not rendered by the Contractor.

HEALTH INSPECTOR'S REPORT NO. 42/46.

31st October, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

I have to report to Council that an inspection has been made of the erection of a tent, or a structure consisting of calico or textile material, approximately 15ft. x 15ft. in size, on Lots 24/26, Section 45, D.P. 728, near the junction of Wyong and Ascot Streets, Canley Vale.

This structure is occupied by Mrs. J. McEnery and two children, a boy of 14 years and a girl of 10½ years. Mrs. McEnery made application to the Housing Commission for a dwelling some time ago, and on Wednesday the 30th October, 1946, I had an interview with an Officer of the Child Welfare Department and provided the Officer with a letter to be used on Mrs. McEnery's behalf in obtaining premises with reasonably healthy living conditions. The Officer of the department will be forwarding this letter, accompanied by one from his department, to the proper authorities to aid Mrs. McEnery in obtaining premises.

The structure consists of a frame of bush timber, some iron and an old tarpaulin, which is mildewed and not weatherproof and is placed upon the ground, there being no floor to the same. There is a dilapidated E.C. erected, which I was informed is serviced by the employees of the contractor. On the day of inspection I was informed that one of the children had bronchial asthma and had been under medical care for some time.

RECOMMENDATION.

I recommend that a notice be served upon the occupier to demolish the existing structure on the subject land.

Period for compliance thirty (30) days.

HEALTH INSPECTOR'S REPORT NO. 43/46.

31ST OCTOBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen;

Re Sullage in Cabramatta Road East.

Inspection has been made as requested by Council of sullage water in the water table on the south side of Cabramatta Road East between Lovoni and Lovuka Streets.

Premises No. 64 "Acon", Cabramatta Road East are discharging house waste water into the street gutter, after first passing the same through a small filter trench. The drainage to the premises is not to Council's regulations, the kitchen sink, tubs and bath being untrapped, a gully not being provided exterior to the dwelling, the discharge of waste water being firstly through a grease interceptor and then to the before mentioned filter trench with an overflow pipe to the street gutter.

The water table in front of the premises has become fouled by the discharge of house waste water, and the growth of grass, due to the discharge, is now interfering with the grade of the gutter.

On inspection other defects in the premises were noted, the front verandah post supports have tilted on a dangerous angle due to the footings of the front verandah brick piers having become undermined by the discharge of roof water from an adjacent down pipe, the footings to the front fender wall have also been slightly affected.

The premises also require bird proofing, as birds, mainly starlings, are nesting in the roof area. A rear bedroom requires permanent ventilation to the same and the exterior walling on the eastern side to be made weatherproof.

RECOMMENDATION.

I recommend that a notice be served upon the owner to remedy the before mentioned defects by carrying out the specified work within ninety (90) days.

1. Effectively trap all waste pipe fittings, provide gullies exterior to the building and dispose of house waste water on the property to an absorption trench as approved by Council.
2. Remove the overflow from the absorption trench at present capable of discharging house drainage in the street gutter.
3. Plumb the front verandah brick piers and posts and underpin the footings to the same. Cause the roof of the premises to be made birdproof.
4. Provide permanent ventilation to the rear bedroom by inserting two 9" x 6" air vents at or near the ceiling level to the external air, and render the eastern wall weatherproof.

Premises No. 70 Cabramatta Road East. Inspection revealed that the overflow from the absorption trench is discharged to street gutter at the northern end of Lovoni Street, and a small quantity of sullage is discharged into street gutters at times.

RECOMMENDATION.

That a notice be served on the owner to carry out the following work within ninety (90) days.

1. Provide gully trap to house drainage line, exterior to the building.
2. Construct bailing pit at the extreme end of absorption trench and disconnect overflow from the street gutter.

WORKS AND GENERAL PURPOSES COMMITTEE'S REPORT NO.20/46

4TH NOVEMBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council

Gentlemen:

The Works and General Purposes Committee has to report that it met on the 31st October, 1946 and decided to make the following recommendations:

1. Health Inspector's Report No. 41/46 - Proposed extension of night soil scavenging district.
That the report be adopted.
2. That the application for leave by the Chief Inspector be approved.
3. That the Licensing Board be requested to furnish to Council full information concerning the present position with regard to the proposed alterations and remodelling of the Cabramatta Hotel.
4. That the Mayor be authorised to expend up to an amount of five pounds for the purchase of a suitable presentation to Dr. Grace Cuthbert for the occasion of the laying of the foundation stone of the Baby Health Centre.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE.

OVERSEER'S REPORT NO. 16/46.

4TH NOVEMBER, 1946.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

SUBDIVISIONS.

1. Subdivision has been submitted by Preston G. Saywell, Solicitor, on behalf of Mr. J. Bullock, Cabramatta Road. A request to deduct from block 15, $2\frac{3}{4}$ perches and add to block 16.
The subdivision has been recommended by the Officer of the Cumberland County Council. I would recommend approval as the property has been fenced with these dimensions for many years, and Mr. Geo has sold his share in the garage business on block 15.
2. Subdivision submitted by Mr. Stapleton on behalf of Mr. Geo, 52 Mulgoa Road. He wishes to subdivide 3 acres from 45 acres. The 3 acre block situated at the corner of Mulgoa and Bibbys Roads with a residence already built.
It has been approved by the Cumberland County Council. I would recommend approval of the subdivision.
3. Plan submitted by Mr. Palmer of 62 Lansvale Street asking for permission to subdivide a block with a 99ft. frontage to Lansvale Street and a depth of 250 ft., into two blocks, A - 50ft. frontage, B - 49ft. frontage.
It has been approved of by the Cumberland County Council and I would recommend approval of the subdivision.
4. Plan submitted by Mr. J. H. Forshaw, surveyor, on behalf of Mr. C. and Mrs. E. Samuel, subdividing 90ft. frontage to Cabramatta Road with a depth of 273ft. from 4 acres 1 rod 35 perches.
It has been approved of by the Cumberland County Council and I would recommend approval of the subdivision.
5. Subdivision submitted by R. Lucas, 61 Mulgoa Road, Ontley, asking for permission to subdivide land situated at the corner of Chatham and Madeline Streets, into 11 blocks facing Madeline Street and 2 blocks facing Chatham Street.
It has been endorsed by the Officer of the Cumberland County Council but I would not recommend the subdivision but would suggest only 11 blocks facing Madeline Street and all running down to the creek at the rear, simplifying drainage.
6. Mr. Morris of 73 Beckenham Street, Canley Vale writes asking for permission to subdivide a block of land 100ft. facing Beckenham Street with a depth of 294 and 332ft., into two blocks each 50ft. facing Beckenham Street.
It has been approved of by the Officer of the Cumberland County Council and I would recommend approval of the subdivision.

ELECTRICITY COMMITTEE'S REPORT NO. 22/46

18TH NOVEMBER, 1946

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council

Gentlemen:

The Electricity Committee has to report that it met on the 14th November, 1946, considered the Electrical Engineer's Report No.32/46 and decided to make the following recommendations:

1. Range Rate for Refrigerators.

That the report be re-submitted after the question of electricity charges by the Railway Department has been considered.

2. That paragraph 3 of the report be referred to the Works and General Purposes Committee.

3. That the Electrical Engineer arrange for a circular to be distributed to each consumer in the Municipality concerning the protection of apparatus against partial failure of the electricity supply.

4. Application for the installation of 10 h.p. motor

That the Electrical Engineer's action be endorsed and that Council insist that the proposed pump house be not erected on the footpath also, that the charge at present applicable to the Water Board in respect of electricity supplied, apply to this pump.

5. That the Electrical Engineer be requested to furnish a report on the employment of a refrigeration mechanic and a method whereby consumers may insure their refrigerators with the Council.

ELECTRICAL ENGINEER'S REPORT NO. 32/46

14TH NOVEMBER, 1946

His Worship the Mayor and Aldermen,
Gabramatta and Canley Vale Municipal Council

Gentlemen:

1. Range Rate for Refrigerators.

The question was raised by Ald. Wingrave on the allowance of the range rate for absorbent type refrigerators. It is most difficult to allow a particular rate for a certain type of refrigerator for a number of reasons. I have had meter readings taken for 98 hours for both absorbent and compressor types of refrigerators:

Absorbent type - 28 3/10 Kwhrs.
Compressor type - 5 9/10 Kwhrs.

so it is very obvious, that whilst the manufacturers of the absorbent type of refrigerator say that they use very little more electricity than the compressor type, the actual facts are shown in the above tests.

The question of metering is another matter as the refrigerator is wired to a power circuit which contains the usual number of power outlets. There would have to be alterations in the wiring, special fusing and a special meter connected, otherwise people would be getting the range rate for every appliance they used and I do not think the Ordinance would allow, in any case, the lower rate for the absorbent type without allowing it to all other types of refrigerators.

I am still of the same opinion as I was 12 months ago, that there is only one way to allow the lower rate, and that is by reducing the tertiary kWhr. from 1½d. to 1d. that is, if Trading Fund is financial enough to give this rebate. In any case, this matter may be deferred until after the question of electricity charges by the Railway Department have been considered.

2. Damage to High Tension Wires

During the high prevailing wind on the 13th inst. the roof of the Wilson Hirst Store was blown off and it snapped a 55' pole about 18' above ground level breaking 6 of the cables being supported. It was necessary to erect another pole and consumers were given the supply commencing at 6.30 p.m. in some of the outer area and in the town area about 7.10 p.m.

A number of high tension fuses were blown in the outer area and the whole of the supply was completely restored by 10 p.m.

p.t.o.

ELECTRICAL ENGINEER'S REPORT NO. 32/46 CONTD.

SHEET 2

3. Range rate for small types of electric cookers and stovettes.

I submit herewith a type of small cooker known as "The Rand" which has a top and bottom element.

In conjunction with the report I submitted at the last Electricity Committee, in Council making a decision, the question is, where are we going to stop giving the range rate.

4. Failure of Electricity Supply in St. Johns Park

At 2.45 a.m. on Sunday the 10th inst. the supply was interrupted in the outer area. We had no notice of this until 6.30 a.m. when a consumer rang up and by 7 a.m. the supply had been restored.

This was most inconvenient to 2 or 3 consumers as refrigerator motors, in several instances, had burnt out. I have been endeavouring for some time past, to get a type of switch apparatus that could be installed so that in the event of the supply failing partly, that is, when a high tension fuse blows and only gives a partial voltage which is not sufficient to turn the motor over but burns the stator windings, this breaker should open and remove the supply from the particular motor. The breaker in question would cost about £2 each installed. The cause of the trouble in this instance and probably in several others, was a possum lying at the foot of the pole in Mulgoe Road near Swan Road. There is a tree close to the high tension line and I believe it is infested with possums and I am endeavouring to get permission to have the tree cut down and then the source of interruption to the rural area electricity supply should be removed.

5. Application for installation of 10 h.p. motor.

Verbal application has been received from the Metropolitan Water, Sewerage and Drainage Board for the supply of electricity for a 10 h.p. motor for the purpose of running a booster pump to be connected in Cabramatta Road near Hume Highway.

This pump is intended to give residents between Cabramatta Road and Chinamen's Creek some relief with the poor pressure of water. They suggested putting a 10 x 8 shed on the footpath on the south side of Cabramatta Road near Hume Highway. I mentioned the fact to their Engineer, Mr. Ringrose, that this would be an obstruction on the footpath and would it be possible for them to make arrangements to put this structure housing the pump on private property and so they are now endeavouring to do this.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council

Gentlemen:

The Building Committee has to report that it met on the 14th November, 1946 considered the Inspector's Reports Nos. 53/46, 54/46 and decided to make the following recommendations:-

1. Report No. 53/46 - Building Applications.

- (a) That recommendations numbered 1, 2, 3, 4 (1) and 4 (2) of the report be adopted.
- (b) That application No. 405/46 be approved.
- (c) That applications No. 406/46 and 407/46 be approved subject to the plans and specifications being amended to provide for a tiled roof.
- (d) That the Chief Inspector be authorised to adhere strictly to Council's requirements regarding the tiled roof area and that such requirement not be applied to subsidiary buildings such as detached garages etc.

2. Report No. 54/46 - Correspondence Received

- (a) That paragraphs 4 and 5 of the report be adopted.
- (b) That the application by Mr. J. F. Rose for permission to reside in a caravan be approved for a period of 3 months subject to compliance with any requirements of the Chief Inspector regarding sanitary arrangements.
- (c) That the application by Mr. V. Clark for permission to erect an army hut be approved for a period of 6 months subject to the type and size of the hut meeting with the approval of the Chief Inspector and to compliance with his requirements regarding sanitary arrangements. It was also recommended that the applicant be requested to submit plans and specifications of the permanent dwelling proposed to be erected on the land.
- (d) That the application by Mrs. D. Hogan for permission to erect a temporary dwelling be approved for a period of 6 months providing proper closet convenience is provided.

BUILDING INSPECTOR'S REPORT NO. 23/46 CONTD

SHEET 2

Housing Commission Cottages in First, Second, Third
and Fourth Avenues.

The Inspector verbally reported that he had received a telephone message from Mr. Henwood of the Public Works Department stating that owing to short supplies of standard corrugated fibre the Commission found it necessary to substitute galvanised iron (painted) roofing on twelve of the above houses. The Committee decided to make the following recommendation:

3. That the Housing Commission be informed that the Council is not in favour of galvanised iron roofing in the area and request that tiled roofing be substituted in place of galvanised iron.
