Drainage - George's River Road.

Complaints have been received from the occupier of property at the corner of Hume Highway and George's River Road, where stormwater collects and remains under and around the dwelling. The position was inspected in company with the Mayor and the Chief Health Inspector on the 5th May, 1928.

Provision for drainage is an open gutter along the south side of the road from the Highway to George's River.

The gutter is at present obstructed by vegetation and temporary relief can be given by cleaning out a length of approximately 1000 ft., about 2/3rd of which could be done by the grader.

As the fall available is only 2 ft. it will eventually be necessary to lower the invert of the concrete culvert at Lansvale Street.

Estimated cost of cleaning out the drain and building up Foot Path where required is £30.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE.

MAYORAL MINUTE NO. 1/48.

31ST MAY, 1948.

The Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

When Councils adopt the Contract system for the rendering of its sanitary service it does so because it believes that this service will be carried out cheaper, more efficiently and with the minimum of supervision by Council's Health Inspectors. Should the Contractor fail to render service in any one of these, in the interest of public health and Council administration, it is a serious matter, where failure to render satisfaction in every phase has been reported by your Health Inspectors and where the price factor alone has been the subject of repeated complaint by ratepayers. I am commending for reconsideration Health Inspector's Report No. 16/48.

What could be expected as the new sanitary Contract price at the expiry of the present one in December, has concerned me a deal, and I have asked your Inspectors to make enquiry as to what could be expected. It was ascertained by these officers that at Blacktown Shire where a new Contract had been agreed upon by Council and charges 1/1d. near depot/1½d. over three miles and 1/2½d. between, were agreed upon for removal and burial of nightsoil. The three mile limit would mean for here, all that section east of Railway line would pay the highest charge for removal and burial of nightsoil. Blacktown has evident similarity to here insofar as being a small township like ours surrounded by scattered residential area and semi-rural area. Population is 17,000 people with 3,500 services to our 2,500. Also that previous charges have been Blacktown 40-8½d. ours 8½d. and following the strike to 11½d. the same as ours. Blacktown's Contractor is the same as ours and as Mr. Goodsell was the only tender it seems we are in for a price the same or even more than there. There can be no bargaining if there is only one tenderer, Council is faced with extreme difficulty if they are to arrive at advantageous prices. We would perhaps have to agree to extortionate charges, due to our having no plant to carry on this service if we consider this to be so.

Your Chief Inspector has submitted a report of an estimated price per service of 1/- which will provide new plant to be manned by three additional men than at present, the introduction of new labor-saving plant as extras. To provide a service such as now exists here costs would apparently be much lower. Your Inspectors have reported repeatedly in adverse terms on the rendering of the sanitary service during the past three years. Mr. Goodsell has been berated by Council and every Alderman has at one time or another commented adversely about the poor service. Fines have been imposed all without any beneficial effects to the rendering of sanitary service.

Repeated complaints reported over the last three years by Inspectors have been- irregular supplies of disinfectant, inadequate supplies of tar,- Inspectors had to invoke penalty clause in order to have pans tarred- insufficient pans, failure to provide pans in reasonable state of repair, failure to provide rings and lids for removal of pans, repeated washing pans in cold water only, resulting in pans being not cleaned properly and added to no disinfectant and irregular tarring is an absolute menace to health, failure to provide regular and ample supplies of coal, improper burial of nightsoil and leaving of trenches open over night and utter disregard of Council's instructions regarding proper use of disposal area, resulting in daily supervision by Council's Inspectors.

Present plant at depot is old and overdue for renewal, the breakdown rate is costly resulting in excessive overtime, and many services not being rendered each week. Inspectors informed me that.

T.A.B.

two 16 year old lads, one the son of the depot foreman, are in receipt of £9 per week. Sanitary work is heavy and it is not desirable that boys should be engaged even at boys rates.

The people of this Municipality are paying for the foregoing and this year you, on their behalf, are being asked to consider whether it would justify the extension for a further period of contract sanitary Cartage. Time in short and my personal opinion is that the service can be rendered more efficiently, greater attention given to public health, which is so important and the urgent factor of keeping prices at lowest level is adhered to.

It was also so blatantly evident that during the sanitary Carter's strike that no Municipal Carters joined the strikers, a factor which deserves major consideration.

PRESENT. The Vice Chairman Ald J. G. McBurney, J.P.,
The Mayor Ald. T. A. Cooper, Aldermen J. A. Dawson and
W. J. Preston.
The Committee considered the Electrical Engineer's
Report No. 10/48 and decided to make the following
recommendations:-

- (1) Paragraph 1.
That Mr. Bowers be requested to take delivery of the
cooker for the purpose of ascertaining whether he
considered it satisfactory, and if he was not satisfied
it to be returned to the manufacturers by the Council
for further attention.
- (2) Paragraph 2.
That the report be adopted.
- (3) Paragraph 3.
That the report be adopted
- (4) Paragraph 4.
That the report be adopted.
- (5) Paragraph 5.
That the lamp be erected also that additional lamps
be erected in Cook Avenue and Fraser Road.
- (6) Paragraph 6.
That the report be adopted.

J. G. McBurney
VICE CHAIRMAN.
T. A. C.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE.

ELECTRICAL ENGINEER'S REPORT NO. 10/48

27TH MAY, 1948

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

1. Correspondence.

A letter has been received from Mr. J. C. Bowers, 93 Bold Cabramatta, with reference to a "Bridge" single-plate cooker purchased from this Council about eight months ago. This range was picked up and returned to the manufacturers at Newcastle, due to the fact that the top element was receding back below the level of the hob, and this has now been fixed up, but when returned to Mr. Bowers he would not take delivery of it. I submit Mr. Bowers' letter for consideration.

2. Ranges.

Two "Mettlers" No. 1 ranges have been delivered and the next two applicants on the list for allocation are:- J. Watts, Council Staff; A. Harvey, Church Street, Cabramatta.

Twelve "Rowco" two-plate ranges have been received and the next applicants on the list are as follows:-

N.C. Higgins, 221 Canley Vale Road (Sept. '46)
Mrs. R. McFarland, 221 Canley Vale Rd. (" ")
T. McKay, 40 Canley Vale Rd. (Sept. '46)
B. Gerichievich, Kalang Road (Nov. '46)
J. R. Moore, 347 Cabramatta Road W. (Dec. '46)
P. Osborne, 504 Cabramatta Road W. (Dec. '46)
Mrs. J. Merrick, 52 Gilbert St. (Dec. '46)
E. Haves, Bulls Road (Jan. '47)
M. Marchant, Phyllis Street (Jan. '47)
H. Lucas, Hume Highway, (Jan. '47)
L. Bruni, Green Valley Road (Jan. '47)
F. Redwin, 37 Canley Street (Jan. '47)

The abovementioned are the next applicants on the list requiring two-plate ranges, and alternately three additional names have been added in case those who have made application do not now require a range. The names are as follows:-
M. Cameron, 78 Camden St., Fairfield (Jan. '47) D. Myles, High St. Cabramatta (Jan. '47) Mrs. A. J. Harris, 45 Park Road (Jan. '47)

3. Erection 7/064 Mains, Cambridge Rd. Ferngrove Road to Prospect Creek.

Mr. Murphy of Cambridge Road has made a tentative Application for a supply of electricity for a 15 H.P. motor to operate a pump from Prospect Creek. Mr. Murphy has 15 acres of cultivated land, and subject to certain arrangements, desire this supply. Estimated cost of this work is £107. This will require the erection of three poles and 2,600 yards of 7/064 hard drawn bare copper strand. Estimated income £24. per annum.

I understand that Mr. Haines who has a large property on the opposite side also desires a supply of electricity to operate a pump, but when I called at his residence he was not home, and I therefore could not obtain any information. For Council's consideration.

T.A.B.

ELECTRICAL ENGINEER'S REPORT NO. 10/48(Cont.)

4. Hire Purchase of Electric Ranges.

Several people have taken advantage of purchasing electric ranges on terms. As we now have a number of English ranges in stock, opportunity should be taken to again advertise in the local newspaper, offering ranges for sale on cash or terms, also electric refrigerators.

5. Street Lamp - Lord Street.

Application has been made by Mr. Jones for one street lamp to be erected in Lord Street at St. Johns Road end. Estimated cost for this street lamp approximately 10 chains from St. Johns Road, is £12.

6. Emergency Load Shedding in Peak Hours.

On Monday 24th inst., the Operating Engineer, Railways, Mr. G. Brain, called to this office, and in conjunction with the Electrical Engineer of Liverpool Council, a conference was held with reference to emergency load shedding in peak hours or "Pumping."

Whilst the arrangements in question have to be approved by the Chief Electrical Engineer, an official intimation will be forwarded to Council, and Council should take steps immediately the official letter is received to notify consumers that in the case of overload on the peak hours, the supply will be removed at certain hours in the morning or evening as will be found necessary. The proposed hours are as follows:-

Group 1.	7.45 -8.55	Period 50 mins.)	
Group 2.	8.00 -8.50	" 50 mins.)	MORNINGS.
Group 1.	5.05 -6.15	" 70 mins.)	
Group 2.	5.35 -6.45	" 70 mins.)	EVENINGS.

Non Poultry Farming areas will, as far as practicable, be shed for periods not in excess of 30 minutes each.

Poultry Farming areas will, as far as practicable, not be shed for periods in excess of 15 minutes each, with, where necessary, a minimum restoration period of power supply for three minutes.

The bulk consumers will be divided into groups 1 and 2 so that the load of each group will be approximately equal and every two calendar months the time periods allotted to Group 1 will be changed to those allotted to Group 2 and vice versa.

J. Powell T. L.
ELECTRICAL ENGINEER.

BUILDING INSPECTOR'S REPORT NO. 29/48.

27TH MAY, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

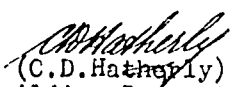

Re Borer Infestation of Baby Health Centre.

On receipt of a complaint an inspection was made of the Baby Health Centre.

Inspection revealed borers to be active in timbers used for storm moulding exterior to window box frame. Investigation of Feed Test room showed the moulding under window nosing on eastern side to be badly affected by borers.

RECOMMENDATION.

1. That a reputable firm of Pest Exterminators be approached re an estimate of costs for the eradication of borers and a complete protection of the timbers from further borer infestation.
2. Further it is recommended
 - (a) That the wrought iron fence be given a coat of paint to prevent deterioration by rust.
 - (b) That a padlock be procured for the entrance gate, to retard unauthorized persons gaining access to the premises.

The Deputy Mayor Ald. J. P. Weir, J.P., Aldermen J.G. McBurney, J.P.,
J.A. Dawson, R.A. Light, W.J. Preston, F.R. Wingrave and W.H. Denton.

APOLOGY

An apology was received from Ald. Melville.

442. Ald. McBurney moved- "That the apology be accepted and leave
granted." Seconded by Ald. Dawson. Carried.

MINUTES.

443. Ald. McBurney moved - "That the Minutes of the Ordinary Meeting
of the Council, held on the 31st May, 1948, as presented, be
confirmed." Seconded by Ald. Light. Carried.

444. The Mayor referred to the recent death of Mr. Wring, Father of
Mrs. Arthur West and also the death of Ald. Preston's Father-in-law.,
and moved- "That letters expressing Council's sympathy be forwarded
to the relatives." Seconded by Ald. Light and carried by the
Aldermen standing in silence.

BUSINESS ARISING OUT OF THE MINUTES.

Ald. Dawson referred to a statement by the Mayor at the previous
meeting that some of the Aldermen had "ships cracked over their
heads" regarding their voting on the sanitary service. He
requested the Mayor to withdraw this statement as far as he,
Ald. Dawson, was concerned.

The Mayor replied that this statement was made in the course of
debate and he did not think an apology was necessary but if
Ald. Dawson requested it he would withdraw the statement and
tender his apology.

The reply was accepted by Alderman Dawson.

CORRESPONDENCE.

445. The following letters were received and ordered to be dealt with
as read on the motion of Ald. Preston and seconded by Ald. Dawson.

It was decided to make the following recommendation :-

1. That the Town Clerk's report be received and adopted.

J.G. McBurney
VICE CHAIRMAN.
T.A.P.

MUNICIPALITY OF CABRAMATTA & CANLEY VALE.

TOWN CLERK'S REPORT NO. 5/48.

10TH JUNE, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Herewith I am submitting Revenue Account for the
Electricity Works Trading Undertaking for the year 1947.

In a similar report last year it was stated that, although there was a larger expenditure in the purchase of assets, the actual trading in sale of electricity was satisfactory. Unfortunately, the same cannot be reported this year.

The present staff position in the office prevents a detailed analysis of the accounts, however, the most important feature is the decrease in what might be termed the "gross profit", i.e., the margin between purchases and sales.

Each previous year has shown an increase in this figure, but for 1947 there was a decrease of £192.

The gross profit each year since 1942 was as under:-

1942	£5,808	67%
1943	6,560	64%
1944	6,981	60%
1945	7,571	64%
1946	9,077	68%
1947	8,885	49%

In a normal business undertaking it is accepted that, with a rapidly increasing turn-over, the percentage of gross profit can quite reasonably decrease. This would be so with this business, but the additional capital required would in a private business be obtained by a suitable increase and the undertaking would earn the additional interest required.

For each of the past two years over £7,000 has been required for the purchase of assets, and although it is reasonable to carry forward portion of this expenditure, if some adjustment is not made immediately there will not be any funds available at all this year.

The decline in the finances of the Undertaking during 1947 has been principally due to the figures quoted above. The cost of electricity purchased from the Railway Department has increased from .9032d. to .9933d. and the price per unit received from consumers has decreased from 1.5234d. to 1.4828d.. Council's own costs have increased during the year, but they are of comparatively small importance. The drift caused by the increased purchase price and the reducing return (due to the sale of lower price groups increasing at a greater rate than the primaries) cannot be allowed to continue any longer than is required to correct it.

In my opinion an amount of from £2,500 to £3,000 per annum should be provided by increased charges. This would mean increases of approximately 10% and I recommend that the charges be reconsidered to provide this increase on all meter reading from the 1st July, 1948.

I have not attempted to recommend alterations in the tariff. This will require considerable thought. I have discussed the question with the Electrical Engineer who will submit his recommendations for Council's consideration. However, I do consider

it essential for Council to agree to the principle of the increase of 10% to enable suggestions to be submitted for the next meeting regarding the manner in which it can be implemented.

HEALTH INSPECTOR'S REPORT NO. 39/48.

10TH JUNE, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Sanitary Service.

Recent inspections of the Council's Sanitary Depot have disclosed that the Contractor has failed to carry out entirely certain directions given in writing by the Inspector on the 5th May, 1948.

The Contractor was directed among other things to:-

- (1) Provide and maintain an adequate supply of disinfectant at the depot.
- (2) Provide and maintain supply of fuel at the depot to ensure adequate maintenance of the boiler and tarring hopper.
- (3) Cause the cleansing shed to be lime washed to the satisfaction of the Inspector.

Supplies of disinfectant and fuel have not been maintained, resulting in pans being delivered without being disinfected, and also being cleansed in cold water at times.

The cleansing shed has not been lime washed to the Inspector's satisfaction although a section of the shed has been completed.

Clause 44A of the specification of the Contract, provides that if the Contractor neglects or fails to promptly fulfil or obey directions or orders given by the Inspector, or to attend to any complaint received regarding the service, the Contractor shall for every such neglect or failure forfeit and pay to the Council the sum of ten shillings (10/-) for every day such neglect or failure continues.

It is recommended therefore, that the Contractor be fined the sum of five pounds (£5) in accordance with the conditions of the above clause of the Contract, and that the Contractor be notified that from date of receipt of notice the Contract is to be carried out in its entirety. Any breaches of same will result in the immediate imposition of the appropriate penalty.

The Contractor also to be notified that particular attention will be given to ensure that the following clauses of the specification of the Contract are strictly carried out:-

Clauses 18a, 18b, 19a, 19b, 20, 27, 38, 44a, 44b and 44c.

It is further recommended that the Contractor be notified to carry out the following works within seven (7) days. Failure to do so will result in a penalty as provided by the Contract.

- (1) Remove all obsolete and disused pans from the depot premises.
- (2) Complete the lime washing of cleansing shed to Council's satisfaction.
- (3) Replace all dilapidated and mis-shapen pans with new ones, as directed by the Inspector and make provision for the continued repair of pans in use.
- (4) Repair grate to boiler.

HEALTH INSPECTOR'S REPORT NO. 40/48.

10TH JUNE, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Re temporary occupancy of shed - situated
Lot 19, D.P. 7183, Lansdowne Road.

An inspection of above premises on the 7th June revealed that a family comprising two male adults, one female adult and three children are in occupancy of a large galvanised iron shed. The shed is divided into three compartments, and has an earthen floor.

One compartment is occupied as sleeping quarters by the Mother, a girl aged 16 years and a boy aged 11 years, while another compartment used as sleeping quarters for an adult male and a boy aged 14 years. The shed is not waterproof and in one instance a tent is suspended over a bed to keep the rain off.

The bathroom consists of one tub set up under the trees and screened with hessian. Laundry tubs are in the open with no protection from the weather.

This family was given permission for temporary occupancy of the shed in 1946 for a limited period, until the owner could gain possession of his house situated on the next allotment.

Subsequently on May the 9th, 1947, Council granted an extension of three months for occupancy pending the hearing of a Court case for possession of the owners house.

It is considered that continued occupancy of the present abode is dangerous to the health of the occupants and it is recommended that a notice be served on the occupants to discontinue after a period of two months, the occupancy of a building not intended for human habitation.

HEALTH INSPECTOR'S REPORT NO. 41/48.

10TH JUNE, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Re Housing Commission Houses - Canley Vale.

An inspection of Housing Commission buildings in Lansdowne Road, Second Avenue and Third Avenue, discloses that several houses situated in this area are subject to flooding during wet weather, owing to their low lying sites.

Housing Commission officers have been contacted and inspections have been carried out in their company on several occasions, but to date no steps have been taken to remedy the complaint. Tenants of houses in Lansdowne Road particularly houses numbered 16, 18 and 20, are badly flooded during wet weather.

During an inspection carried out on the 9th June, it was noted that there were sheets of water lying under these houses and the backyards were submerged.

The occupant of house No. 18 has stated that his two children and his wife have been in a constant state of ill health during the tenancy of this house. It was found necessary to vacate the premises for six weeks during a wet spell. The occupant also stated that the Housing Commission was approached with regard to this matter. After hearing his case, the occupant was allotted another house.

Houses which are chiefly affected in Second Avenue, are Nos. 3, 6, 8 and 10, occupied by Messrs. Goodluck, Bowman, Jumakhan and Camp, respectively.

To facilitate the effect of drainage of premises in Second, Third and Fourth Avenues, work of considerable cost may be necessary - kerbing and guttering and the opening of easements.

The conditions prevailing during and after wet weather at the premises mentioned are a distinct menace to the health of the occupants and it is recommended that Council request the Housing Commission to confer with Council with a view to the immediate alleviation of the conditions complained of.

ENGINEER'S REPORT NO. 17/48.

10th JUNE, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

1. Works Completed.

Loan Works : Footpath paving - Shortland Street:
Gully pits - Station Road:

Road Maintenance: Lovoni Street
Canley Vale Road at Ascot & Cambridge
Streets.

Drainage: Water tables - Lansdowne Road, St. John's Rd.
Gutter - Hill Street
drain opposite Orange Grove Road.

2. Works in Progress.

Loan Works: Footpath paving - Beckenham St.
Pipe culvert - Canley Street
Dish crossings - Cumberland Street.

3. General Works.

Completion of drain - Adams Park
Road Maintenance - Beckenham and Bromley Streets
Levuka Street and National Street.

4. Work Proposed for next period.

Loan Works: K. & G. - Canley Street
Drainage adjustments re laying and extending pipes etc.
Longfield Street, Gladstone Street, Humphries Rd.

5. Housing Commission.

I am advised by the Town Clerk that the Housing Commission have requested that Council furnish an estimate for Kerb and gutter along both sides of Melville Avenue. Council might favourably consider this proposal. Estimate is 900 lin.ft. @ 6/6d. = £292.10.-.

6. Adams Park.

The conditions of the grant of £450 requires completion of the drain along Sackville Street which is now in hand and grading of the playing area. I have conferred with two Excavating Contractors regarding the earthwork and submit their respective rates viz.

S. Meyer:	H.D.10 Bulldozer	£3.10.0 per hr.
	12 yd. scoop	10.0 " "
	Transport charge	10. - -

R. Fitzpatrick: D.7 Bulldozer and 12 yd. scoop £3.10.0
per hour.

The work should not exceed two weeks in duration and would therefore cost about £280 if carried out by Mr. Fitzpatrick.

Approved estimate was £326.

7. Correspondence.

From MRS. M.M.CONWAY, regarding danger to fence from adjacent open drain.

Owing to depth of cut to obtain a gradient in a narrow easement it will be necessary to lay pipes in portion of this drain.

Pipes which are to be exhumed in Cumberland Street before road construction in that street and Longfield Street can be carried out will be suitable, supplemented if necessary by a few from Phelps Street which at present serve no useful purpose. It would be advisable to expedite this work.

MOTOR ENGINEER'S REPORT NO. 6/48.

10TH JUNE, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

Repairs necessary to Ford 10 h.p. J.E.654.

This vehicle has now reached the stage of wear when it is necessary to effect major repairs.

These repairs include a re-bore and sleeve of the cylinder block, and the replacement of the piston, rings and gudgeons, also welding and repairs to chassis.

An estimate of this and other necessary work is approximately £30, inclusive of labour.

I take this opportunity of making it known that the steering box is worn, and although it will not break, a definite looseness is noticeable when driving. Parts to remedy this are unobtainable and unless this vehicle is driven at speeds not in excess of 25 m.p.h., I recommend that this utility be withdrawn from further service until these particular spares become available.

The Electrical Engineer has stressed the urgency of supplying transport for the Refrigerator Mechanic.

ELECTRICITY COMMITTEE'S REPORT NO. 13/48.

28TH JUNE, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

PRESENT. The Electricity Committee met on the 24th June, 1948
The Vice Chairman Ald. J. G. McBurney, J.P.,
The Mayor Ald. T. A. Cooper, Aldermen W. J. Preston
and F. R. Wingrave.

APCLOGY An apology was received from Ald. Dawson.
The Committee considered the Electrical Engineer's
Report No. 12/48 and decided to make the following
recommendations:-

- (1) Report No. 12/48.
Paragraph 1a.
That Council authorise this work to be carried out
for an amount of £3.17.6 including provision of a
panel subject to an approved meter box being provided
by the owner, if the box is not provided, the charge
to be increased by an amount of £1.1.6.
- (2) Paragraph 1b.
That the report be adopted.
- (3) Paragraph 2.
That the report be adopted.
- (4) Paragraph 3.
That the Rowco ranges be advertised for sale and that
without the necessity for application to be submitted
to Council.
- (5) That an additional street lamp be erected at the
junction of Reservoir Road and Liverpool Road and at
the corner of Buckingham and Chatham Streets.
- (6) Consumer No. 639/719.
That a further seven (7) days be allowed for the
arrear to be brought up to date in accordance with
Council's instructions and that the supply be
immediately disconnected should these conditions not
be adhered to.

ELECTRICAL ENGINEER'S REPORT NO.12/48.

24TH JUNE, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

1. Correspondence.

(a) A letter has been received from MRS. N. RILEY, MULGOA ROAD, MT. PRITCHARD. It appears that when the foreman Mr. Shepherdson, was trying to locate the address of a Mrs. Riley in that area he called at the address of Mrs. Riley at 139 Mulgoa Road, Mt. Pritchard and in discussing the question of installation she stated that she had a Metters No. 1 range but it was not permanently wired so he asked if he could have a look at it and found that two temporary wires and an earth wire had been run and he suggested to Mrs. Riley that the temporary wiring be removed and permanently wired. It was necessary to instal a new panel, metal meter box and wiring at a estimate cost of £6.16.6. Mrs. Riley now complains in her letter that she was quoted £2.10.-, two years ago, but on making inquiries I cannot find any record of the instruction being given.

(b) From J. C. BOWERS, 93 BOLD STREET, CABRAMATTA, complaining that he is still not satisfied with the Bridgebuilt range which has been returned from the manufacturers and reconnected. Might I suggest that a copy of the letter written by Mr. Bowers be forwarded to the distributors and ask him to communicate with the manufacturer on the question of either a new range or refund of that money.

2. The Shire Clerk of Nepean Shire has communicated with me with reference to the installation of additional street lamps between Wilson Road and Cowpasture Road in Green Valley Road. It is proposed to erect three additional street lamps. This will mean the ruhning of the necessary cable, crossarms etc. In view of the long dark nights might I suggest immediately the communication from the Nepear Shire has been received that the work be proceeded with.

3. Following Council's decision of the distribution of twelve (12) Rowco ranges received, 15 applicants for ranges were notified by letter and up to date only one range has been sold and one letter returned address unknown at that address. Council might consider now, the elimination of priorities for electric ranges and sold to the first enquiries.

ELECTRICAL ENGINEER'S REPORT NO. 11/48

24TH JUNE, 1948

His Worship the Mayor & Aldermen,
Cabramatta & Canley Vale Municipal Council.

Gentlemen:

Submitted herewith is a Report of the proposed increased charges for electricity to consumers in this Municipality and the Shire of Nepean. A marked increase was shown in the charge per Kwhr. between January and December 1947 by the Railway Department.

January price per Kwhr.	.4709 pence
December " " "	.6286 "
Inclusive of K.V.A. charge	
January '47 price per Kwhr.	.7618 "
December " " " "	.8999 "
An increase of .1382d. per Kwhr.	

In view of the Report submitted by the Town Clerk, I am of the opinion that there is no alternative but to increase the charge per Kwhr. to the consumer to stop the drift.

It will be interesting to note that the cost to supply electricity to the consumer exclusive of the cost of electricity for the year ending 1947, the charges were as follows:-

Administrative	£2,449
Management & General	4,189
Depreciation	1,866
Special Charges	966
Interest	487
Bad Debts	24

£9981

or £3.6.6 per annum per consumer, as against £3.4.-- per annum in 1938.

Sales increased since 1938

Primary Kwhrs. 60%
Secondary, tertiary & range Kwhrs. 500%

this is very obvious, due to the fact that the consumer is more electrically minded.

Various tests have been made, and whilst I would like to see a fixed number of primary Kwhrs. for all consumers, in view of the fact that there must be an increase, and the only method is to increase the primary Kwhrs. from 6d. to 7d. and the .8d. range rate to 1d. thus making:-

Primary Kwhrs. 7d, less 1d. discount
Range Kwhrs. 1d.

The number of Primary Kwhrs. sold in 1947 was 342,614 bringing in a revenue of £8,623
Range Kwhrs. @ .8d.- 1,176,668 Kwhrs. = £3,927

The amount of additional Revenue through proposed increase would be about £2,400.

I have discussed this question fully with the Town Clerk and he has agreed to the proposed increase.

HEALTH INSPECTOR'S REPORT NO. 43/48

24TH JUNE, 1948

His Worship the Mayor and Aldermen,
Cabramatta & Canley Vale Municipal Council.

Gentlemen:

Re Premises situate at Lot 2, D.P. 14481,
Bowden Street, Cabramatta.

I have to Report to Council that an inspection of the above premises was carried out on the 17th June, 1948, and revealed that no attempt has been made to carry out certain essential repairs required by Council.

A Notice, in terms of the provisions of the Public Health Act 1902-1944, was posted to the owner on 12th December, 1947 directing work to be carried out on the premises. A further reminder was posted on or about 4th February, 1948 and a Final Notice on the 22nd April. Council first served notice on the owner of these premises to carry out the work required, on the 29th November, 1945. Since then three further notices and reminders have been posted to the owner.

It is strongly recommended that the following resolution be carried by Council:- "In pursuance of powers vested in Council by Section 65 and 66 of Public Health Act 1902-44, that Council's Chief Inspector be authorised to institute legal proceedings on behalf of the Council, at Liverpool Court of Petty Sessions against Mrs. Isabel Marshall, being the owner of premises situate at Lot 2, D.P. 14481, Bowden Street, Cabramatta for failing to abate a nuisance within the meaning of Section 64 of the said Act.

HEALTH INSPECTOR'S REPORT NO. 44/48

24TH JUNE, 1948

His Worship the Mayor and Aldermen,
Cabramatta & Canley Vale Municipal Council.

Gentlemen:

Re Premises situate at Lots 9-14 & part 15,
Section G. D.P. 2151, Georges Hall Road.

Inspection of the above property carried out on the 12th April, 1948, revealed that an out-building previously used as a stable or cart shed was occupied by a family comprising man and his wife and two children. It was ascertained that the building had been altered and converted on or about September, 1947 without Council's permission.

The original building consisted of one room, measuring approximately 18 X 9 and an open cart shed. The cart shed has now been converted to a room measuring 18 X 15 with a lean-to annex for the purpose of bathroom and laundry covering approximately 10 X 6. These are constructed of part weatherboard and part galvanised iron walls and galvanised iron roofing. The roof of bathroom and laundry is not weatherproof and leaks badly in wet weather. The rooms are unlined and unceiled. The living room has a height to wallplate of approximately 8 ft. The bath tub and laundry tubs are set up in the annex but are not connected to any drainage system or water supply, and they have to be filled from a standpipe situated outside the building and emptied by hand whenever they are used.

The standpipe is the only available water to the building. Occupants are using the lavatory intended for use by the occupants of the main dwelling, which is occupied by the owner. The main dwelling is a large residence and is at present occupied by the owner and his wife. The site of the outbuilding is wet and damp and requires draining.

The owner when questioned regarding the unauthorised alterations and additions stated that the alterations were made at the direction of the previous owner to enable the present occupants of the outbuilding to vacate the permanent dwelling to allow the new owner vacant possession of the permanent dwelling. Information has disclosed however, that the present owner was engaged in the actual construction of the unauthorised additions. The present owner also stated that he was anxious for the occupants to leave their present abode and that alterations were made and occupancy made possible of the outhouse building for a temporary period until suitable dwelling could be obtained. The occupants state that they were ordered to leave the present dwelling under a threat of eviction by the previous owner to make way for the new owner, and that at one stage they were offered a sum of money to vacate the permanent dwelling.

The occupants have been paying a weekly rental of 15/- plus 1/- for electricity to the present owner since the beginning of October, the time the occupancy of the outbuilding commenced.

HEALTH INSPECTOR'S REPORT NO. 46/48

25TH JUNE, 1948

The Town Clerk,
Council Chambers,
CABRAMATTA.

Dear Sir,

Re Tenders for Sanitary Contract.

It is recommended that when Tenders are called for Sanitary Contract within the Municipality, that in addition to conditions laid down in the current Contract and Specifications, that the Tenderers be asked to provide:-

A new plant, including mechanical washing and steaming apparatus, boiler, vehicles, cans, lids, springs, rubbers, and all other essential appliances for the efficient rendering of the Contract excluding a tar boiler.

The reason that all new plant is suggested is that the present vehicles in use are most unserviceable and the plant generally is far from the required standard to enable a good service to be rendered.

I understand that Council did request a new plant when tenders were called for the current Contract, and a variation took place owing to existing war conditions, when plant could not be obtained.

As evidenced by enquiries made when Council recently contemplated carrying out the service, new plant should now be available within a reasonable time.

It is recommended that the Specifications of the current Contract be retained in their entirety with the following amendments to the penalty Clauses.

26 B. Substitute a fine of 20/- in lieu of 10/- for failure to attend to complaints within the specified time.

44 A. Substitute a fine of 20/- in lieu of 10/- for every day the Contractor neglects or fails to carry out by direction or order given by Council's Inspector.

TOWN CLERK'S REPORT NO. 6/48.

24TH JUNE, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

With regard to the proposed purchase of Lot 36 Section C, D.P. 2526, Railway Parade, I am submitting two quotations for removal of the dwelling.

If Council proposes to further the transaction, I would recommend that the agreement provide for removal of the building and purchase of the land. Council to be authorised to complete the transaction at a future date suitable to it, but Mrs. Allan to have the right to demand completion by giving three months notice to the Council.

MINUTES OF AN ORDINARY MEETING OF THE COUNCIL HELD ON
12TH JULY, 1948. MEET NO. 6.

Lunn's Subdivision.

The Mayor reported that, as authorised by Council, negotiations had proceeded with Mr. Lunn. The approval of the Cumberland County Council had been obtained to the proposed subdivision and the valuation of the realisation value had been obtained from Smith Bros. & Co. The Vendor has agreed verbally to sell to the Council subject to the approval of another interested party. Before the offer had been confirmed, however, it was ascertained that the land was being acquired by the War Service Homes Commission and this fact had subsequently been confirmed from the Commission. The cost of the valuation had been £31.10.-.

Ald. Dawson moved- "That the report be received and adopted, and the Town Clerk authorised to negotiate with the War Service Homes Commission as to whether the valuations would be of any value to it." Seconded by Ald. Weir. Carried.

566.

The Town Clerk submitted the following Lists, Statements and Summaries for the year 1947.

GENERAL FUND.

1. List of Rates, Extra Charges and Sanitary Service Charges abandoned.
2. List of Sanitary Service Credits, as at 31st December, 1947.
3. Statement of Fixed Assets showing additions and Depreciation.
4. Summary of Town Hall Bookings.
5. List of Stores and Materials and Summary.
6. List of Garage Stock.
7. List of Garage Plant.

ELECTRICITY WORKS TRADING FUND.

1. Summary and List of Stores and Materials.
2. List of Sales and Installations Stock.
3. List of Refrigeration Stock.
4. List of Refrigeration Plant.
5. Lists of Tools and Instruments in Use.
6. Statement of Fixed Assets showing additions and Depreciation.

Submitted also was Certificate of Rates Levied for the year 1948 showing arrears for each rate and reconciliation of total U.C.V. with V. G. Lists.

Ald. Light moved- "That the Lists be received, noted and approved by Council and that the Seal of the Council be affixed to the Rates Levied." Seconded by Ald. Weir. Carried.

567.

Ald. Weir referred to the condition of Georges River Road and stated that if a load of shale was made available, one of the residents was prepared to spread it himself. The Mayor said he would refer this matter to the Engineer.

Ald. Dawson asked regarding attention to electricity poles in Cabramatta Road and centre suspension lighting. The Electrical Engineer stated that the poles would receive attention at an early date but that he had not received the material for lighting.

Ald. Light requested attention to an opening in Kurrajong St. and long grass near the telephone box and letter receiver in Shortland Street. He also referred to the sullage water from Ingall's shop in John Street which had entered the street on a recent Saturday morning apparently because the time-switch needed adjustment. This matter was referred to the Engineer and Electrical Engineer for attention.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE.

MAYORAL MINUTE NO. 2/48.

12TH JULY, 1948.

The Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

The maintenance of a reasonably high standard of public health is an obligation on every Municipal Council and in its endeavour to carry out a policy which accords with this, certain Statutory Bodies have been set up to assist Municipal Councils in the metropolitan area. It is not my intention here, to criticise what the Metropolitan Water Sewerage Board is doing, as far as established sewerage schemes are concerned, possibly the circumscribed statutory limitation pervades a quick attack on the fulfillment of all sewerage in Sydney.

My particular concern is, of course, the relief to this Council of the health burden in the efficient disposal of nightsoil and noxious waste liquids from the business, trade and house properties within the initial sewerage areas in this Municipality. Again the implementation of a sewerage scheme here would materially assist in the rapid development of the Municipality. The Metropolitan Water Sewerage and Drainage Board is the co-ordinating authority in the metropolitan area and despite the fact that Councils may be able to secure finance and have the trained personnel to carry out this job, this work must be lumped up with the huge programme which the Water Board has on hand for this and ensuing years and as a consequence it will remain undone for many years hence. Some people rant because of the incapacity of bureaucracy but could any more absurd situation exist than this. If we were outside the jurisdiction of the Water and Sewerage Board, our scheme could and would proceed ahead quite peacefully as are some of the country sewerage schemes which are now in course of construction. The co-ordination of the various works projects under the Water Board's control apparently are due for an overhaul; where in these days of splitatoms, jet propulsion, rocket bombs can be developed far beyond the Physicist's dream for destruction, 20th Century health and life preservation matters lay behind in implementation some 40 years due to the lack of that essential, the will to proceed to the task.

It is a sad commentary on our form of life that wisdom did not prevail during the ten years preceding war, that so many breadwinners who were out of employment then, were not engaged in this so necessary work. Costs were then about 50% to what they are now, development of a huge sewerage system for metropolos would have been a godsend in those times besides providing sewerage at a cheap return and work to those who were apparently surplus manpower.

Since the beginning of the Councils term, action has been taken to secure agreement with the Water Board for the implementation of a sewerage scheme. The rapid development of every town and city as usually followed this, and besides, streets and gutters are not the proper place for the disposal of house sullage, shop and industrial waste liquids particularly when the eventual reception is an earth drain. Repeated requests have been made by letter and deputation to the Board, this body advised on the 24th February, 1947 that a scheme had been prepared at an estimated cost of £57,900. The Council agreed to this proposal which was in turn submitted to the State Government by the Board.

On the 11th August, 1947 the Board forwarded a copy of its letter to the Treasury submitting a scheme as one meriting Governmental assistance. The letter also mentioned that an

J.A. 6.

objection had been received from the Fairfield Council. The Board considered it should proceed with the scheme. On the 17th November, 1947, the Premier advised of the Governor's approval. In the following month 18th December, the Board advised that survey and preparation of plans would be set in motion. Again on February 5th 1948 we were advised that it was expected plans and investigations should be completed in six months when prospects of construction would be reviewed. The Board's latest letter states that the prospects of any sewerage programme being implemented this year was remote because of the Board's huge commitments already on hand, particular stress being placed on water supply. We agree that the Board in its wisdom should and must provide for the increasing population and water consumption but we ask on behalf of the 12,000 people of this Municipality who are demanding this amenity of sewerage, if country towns with populations a quarter of ours can receive sewerage. An anomalous position has arisen here, where because of our proximity to the huge population of the city of Sydney we are to be denied the right of implementation of such a scheme ourselves as these country towns do because the co-ordination authority has failed to provide that which it was set up to do.

MUNICIPALITY OF CABRAMATTA & CANLEY VALE.

ELECTRICITY COMMITTEE'S REPORT NO. 14/48.

12TH JULY, 1948.

His Worship the Mayor and Aldermen,
Cabramatta and Canley Vale Municipal Council.

Gentlemen:

PRESENT.

The Electricity Committee met on the 8th July, 1948.
The Vice Chairman Ald. J. G. McBurney, J.P.,
The Mayor Ald. T. A. Cooper, and Ald. W. J. Preston.

APOLOGY.

An apology was received from Ald. Wingrave.
The Committee considered the Electrical Engineer's
Report No. 13/48 and decided to make the following
recommendations:-

1. Report No. 13/48.

Paragraph 1.

A letter was also submitted from Mrs. J. L. Rose
regarding the supply of a Meters No. 1 range to
her.

It was decided to recommend the adoption of the
report and that an inspection be made by the
Electrical Engineer and Mrs. Rose granted first
priority on the next allocation subject to the
verification of the facts.

2. Paragraph 2. & 3.

That the report be adopted.

3. Paragraph 4.

That John McCormack be appointed on probation
to the position of Cadet Electrical Engineer
subject to his passing either the Leaving Cert-
ificate examination or the Technical College
Diploma Entrance examination at the end of the
year; his appointment to the position being
regarded as confirmed on his passing of either
of the examinations.

4.

That Council record appreciation expressed by
Mr. F. Wearne regarding the efficiency and his
satisfaction with the electrical work carried out
by the Electrical Engineer and his staff.

J. G. McBurney
VICE CHAIRMAN.

MUNICIPALITY OF CABRAMATTA AND CANLEY VALE

ELECTRICAL ENGINEER'S REPORT NO. 13/48

8TH JULY, 1948

His Worship the Mayor and Aldermen,
Cabramatta & Canley Vale Municipal Council.

Gentlemen:

1. ELECTRIC RANGES.

Two "Metters" No. 1 electric ranges have been received and the next applicants on the list are:-

A. Cambey, Station Street, Cabramatta.

Mrs. Tonkins, Longfield Street, Cabramatta.

The last mentioned applicant has no means of cooking other than a primus.

Twelve "Rowco" electric ranges were advertised in last week's issue of "Biz" and all were sold within five days.

2. STREET LIGHTING

Additional street lamps were erected in the Green Valley Road between Wilson Road and Cowpasture Road, also Heckenberg Road between Mulgoa Road and Meadows Road, and the corner of Beckenham and Chatham Streets.

After a survey of the street lighting in Sackville Street, I am of the opinion that one additional street lamp should be erected at the intersection of Sackville Street and Freeman Avenue, and the existing street lamp near Sackville Street should be erected at the culvert between Freeman Avenue and Canley Vale Road in Sackville Street. Estimated Cost £9.

3. STAFF APPOINTMENTS

Submitted herewith for Council's consideration is a proposal to appoint two of the employees of the Electricity Trading Undertaking to the staff. G. Shepherdson, Chief Foreman and R. G. Hellmers, Mains Foreman.

G. Shepherdson's wages at present are £9.17.-. per week or £512.2.- per annum. He has for many years received 8/- in excess of the Electrical Trades Award.

R. G. Hellmers' wage is £9.9.- per week or £491.1.8 per annum. The proposed increase in salaries is as follows:-

G. Shepherdson	£557. 8. -. per annum
or increase of	£ 45. 6. -. " "
R.G.Hellmers	£536.12. -. " "
or increase of	£ 45. 6. -. " "

It is very important, should industrial unrest occur in the Electrical Trades Union, that there should be several employees besides myself on the staff to carry out any duties required, and would not be called out on strike. The above figures are in accordance with the Municipal Officers Assn. Award of Australia, the same Award under which Council's Electrical Engineer is paid.

ELECTRICAL ENGINEER'S REPORT NO. 13/48(Cont.)

At present G. Shepherdson and R. Hellmers are being paid £2.10. -. per week once every three weeks and one week's additional annual leave, and paid for all overtime directly connected with the supply of electricity, apart from the consumers premises.

The Municipal Officers Association Award would allow for three weeks annual leave and time off in lieu of overtime.

I am strongly recommending the above for Council's approval. Incidentally both employees would have to be Members of the Municipal Officers Association of Australia.

4. APPRENTICE - J. McCORMACK.

* Due to the rapid growth of the Electricity Works Trading Undertaking in both Sales of Electricity and the sale of appliances, installation work etc., I am asking Council to appoint a Cadet Electrical Engineer. It is necessary at all times to have plan records kept and generally assisting the Electrical Engineer.

J. McCormack has been studying since January 1947 for the Entrance Examination for the Diploma Course and has shown great promise in preparing of plans etc., and in accordance with the Municipal Officers Association, Clause 25, an Engineering Cadet must be an employee of not less than 16 yrs. of age who has passed the Intermediate Examination or other equivalent examination, and who is employed on drawing office work of a minor character and so take up any course of instruction recognised by the Municipality and so carry out any duties appertaining to the above in field or office which the Municipality may call upon him to do.

The abovementioned Apprentice is the only Apprentice who has been studying for the Entrance Examination besides his usual studies connected with his Apprenticeship as Electrical Mechanic. I have in the immediate future to prepare all the necessary plans and reports and estimates in connection with the £10,000 Loan.

A letter has been received from the Teacher at the Cleveland Continuation School stating that G. McCormack is showing great promise and should have little difficulty in obtaining his Leaving Certificate or Entrance Certificate.

P. Powditch
(P. POWDITCH)
ELECTRICAL ENGINEER.

Gentlemen:

Re Reclamation of Land - Adams Park.

A recent inspection of Adams Park was made in the company of His Worship the Mayor and Council's Engineer with a view to exploring the possibilities of reclaiming a certain section of this area by controlled tipping of garbage.

A number of Municipal Councils are carrying out extensive reclamation by this method and are converting apparently useless land into local recreations and parklands. Council's present depot has a very limited life as such as the area is being rapidly filled, and it is estimated that it will be only a matter of from twelve to eighteen months before Council will have to acquire another site for garbage disposal.

The proposed site for reclamation in my opinion would not raise any considerable objections as the area is fairly isolated in regard to residential buildings. It will be essential to make provision for adequate covering for the garbage. If the earth made available for this purpose by levelling the area is found to be insufficient it may be necessary at some future date for Council to make arrangements for covering to be transported to the area.

It is recommended however that should Council desire this area to be reclaimed by filling with garbage and covering, that immediate steps be taken to acquire the approval of the Board of Health for this area to be used for disposal of Municipal garbage.
